Rainbow Scale Dragon: Row Coloring and Wing Shape Drawing

Original tasks 1, 2 / independent work

Task 1

A body band is 5 cm tall and divided into five equal rows. What is the height of each row in centimeters?

Task 2

A student plans four colors for five rows: red, orange, yellow, green. What is the problem and how can it be fixed?

Rainbow Scale Dragon: Row Coloring and Wing Shape Drawing

Original tasks 3, 4 / independent work

Task 3

A wing has a shoulder point, a tip point 6 cm outward and 2 cm upward, and a lower point 4 cm outward and 3 cm downward. How many straight or curved connections are needed to close the wing shape?

Task 4

A student colors row 1 red, row 2 yellow, row 3 orange, row 4 green, row 5 blue. Is the rainbow order smooth? Explain.
