Rainbow Scale Dragon: Row Coloring and Wing Shape Drawing

Topic reference / ordinary illustration

Ordinary topic reference. Hypothetical dimensions in the four tasks are supplied in their own text; this illustration is not their measured answer.

Rainbow Scale Dragon: Row Coloring and Wing Shape Drawing

Worked example / complete source key

A student draws a body band 6 cm tall, divides it into five rows, and plans colors red, orange, yellow, green, blue from bottom to top. They draw arcs in row 1 that stay within the boundaries, then color row 1 red. What should they check before moving to row 2?

Answer: Check that every arc in row 1 touches both row boundaries, overlaps are similar, and no arc crosses into row 2. Then confirm the planned color for row 2 is orange and that the sequence red to orange is smooth. If any arc crosses a boundary, erase and redraw it before coloring row 2.
