Negative Space Rose Drawing: See and Draw the Gaps

Original task 1 / independent drawing and calculation

Task 1

A rose outline shows three petal gaps and one outer background shape. Draw the negative-space study. Count your shaded shapes and state the total.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Negative Space Rose Drawing: See and Draw the Gaps

Original task 2 / independent drawing and calculation

Task 2

An outline has five petal gaps. You draw only four negative shapes. Identify the likely error and state one check to find it.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Negative Space Rose Drawing: See and Draw the Gaps

Original task 3 / independent drawing and calculation

Task 3

You measure a petal gap as 6 mm on the outline and 7 mm on your drawing. Is this acceptable? State your reasoning using the convention.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Negative Space Rose Drawing: See and Draw the Gaps

Original task 4 / independent drawing and calculation

Task 4

A drawing shows shading inside two petals and contour lines inside three others. List two fixes and one check to confirm the correction.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Full drawing sheet / reusable blank workspace

Reusable full drawing sheet for Tasks 1 to 4. Print another copy when needed. Keep all original task measurements; if a task specifies larger paper, use that paper size.
