Shaded Heart Drawing: Light-Source Tonal Practice

Original task 1 / independent drawing and calculation

Task 1

Draw a heart about 6 cm wide with light arrows from the upper left. Fill the upper-left lobe with step 2, the middle with step 3, and the lower-right edge with step 4. Add a small step 5 patch at the base. Describe where you place the darkest mark and why.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Shaded Heart Drawing: Light-Source Tonal Practice

Original task 2 / independent drawing and calculation

Task 2

A heart is shaded with light arrows from the upper right. The upper-right lobe is step 2, the middle is step 3, and the lower-left edge is step 4. Identify one mistake if the lower-left edge is actually lighter than the upper-right lobe, and state the fix.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Shaded Heart Drawing: Light-Source Tonal Practice

Original task 3 / independent drawing and calculation

Task 3

Draw a heart with light arrows from the upper left. Use only steps 2, 3, and 4, and include a narrow reflected-light band at step 2 just inside the lower-right edge. Explain why the reflected-light band must not be step 1.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Shaded Heart Drawing: Light-Source Tonal Practice

Original task 4 / independent drawing and calculation

Task 4

Draw a heart with light arrows from the upper left. Shade it with at least four values, then write one sentence explaining how your darkest value agrees with the arrows. Include a check for whether the heart edge is defined by tone rather than a dark outline.

Keep the original task measurements. Use the full drawing sheet in this PDF for a response needing more room; use the stated paper size when a task specifies larger paper.

Full drawing sheet / reusable blank workspace

Reusable full drawing sheet for Tasks 1 to 4. Print another copy when needed. Keep all original task measurements; if a task specifies larger paper, use that paper size.
