Contour Line Sneaker Drawing: Edge-Only Study

Topic reference / ordinary illustration

Ordinary topic reference. Hypothetical dimensions in the four tasks are supplied in their own text; this illustration is not their measured answer.

Contour Line Sneaker Drawing: Edge-Only Study

Worked example / complete source key

A sneaker measures 30 cm long and 12 cm high. You draw a bounding box 15 cm long and 6 cm high. Is the box ratio correct? Show the arithmetic.

Answer: Yes. Sneaker ratio: 30 ÷ 12 = 2.5. Box ratio: 15 ÷ 6 = 2.5. The ratios match, so the bounding box is proportional.
