Graphing Inequalities on a Number Line

STUDENT / CASE 1

Graph x > -2 on a number line. Give interval notation and state whether -2 is included.

Your answer and reasoning:

_____

_____

Graphing Inequalities on a Number Line

STUDENT / CASE 2

Graph x <= 3 on a number line. Give interval notation and state whether 3 is included.

Your answer and reasoning:

_____

_____

Graphing Inequalities on a Number Line

STUDENT / CASE 3

Graph x >= 0 on a number line. Give interval notation and state whether 0 is included.

Your answer and reasoning:

_____

_____

Graphing Inequalities on a Number Line

STUDENT / CASE 4

Graph x < -4 on a number line. Give interval notation and state whether -4 is included.

Your answer and reasoning:

_____

_____
