Compound Inequalities on Number Lines

STUDENT / CASE 1

Graph -3 < x AND x <= 2. Give interval notation.

Your answer and reasoning:

_____

_____

Compound Inequalities on Number Lines

STUDENT / CASE 2

Graph -2 <= x AND x < 4. Give interval notation.

Your answer and reasoning:

_____

_____

Compound Inequalities on Number Lines

STUDENT / CASE 3

Graph x < 1 OR x >= 5. Give interval notation.

Your answer and reasoning:

_____

_____

Compound Inequalities on Number Lines

STUDENT / CASE 4

Graph x <= -1 OR x > 3. Give interval notation.

Your answer and reasoning:

_____

_____
