Multiplying Fractions Worksheets

REFERENCE / CASE 1

Calculate 1/3 * 1/4. Give the answer in simplest form.

1/4

1/3

METHOD: Multiply numerators and denominators; cancel common factors. The exact simplified result is 1/12.
Use the separate practice sheet before checking the answer.

Multiplying Fractions Worksheets

REFERENCE / CASE 2

Calculate 1/2 * 1/5. Give the answer in simplest form.

1/5

1/2

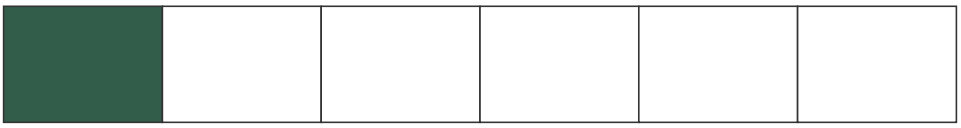

METHOD: Multiply numerators and denominators; cancel common factors. The exact simplified result is 1/10.
Use the separate practice sheet before checking the answer.

Multiplying Fractions Worksheets

REFERENCE / CASE 3

Calculate 3/5 * 1/6. Give the answer in simplest form.

1/6

3/5

METHOD: Multiply numerators and denominators; cancel common factors. The exact simplified result is 1/10.
Use the separate practice sheet before checking the answer.

Multiplying Fractions Worksheets

REFERENCE / CASE 4

Calculate 2/3 * 1/7. Give the answer in simplest form.

1/7

2/3

METHOD: Multiply numerators and denominators; cancel common factors. The exact simplified result is 2/21.
Use the separate practice sheet before checking the answer.
