Finding Missing Equivalent Fractions Worksheets

ANSWER / CASE 1

Complete 1/3 = ?/6. Explain your multiplier.

1/3

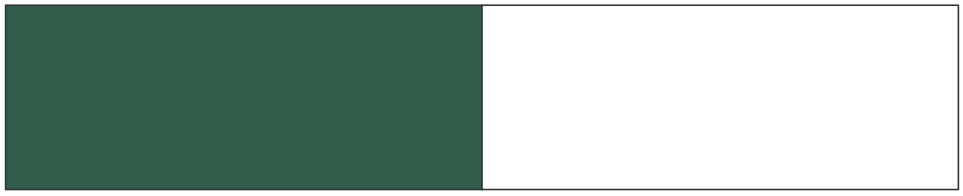

ANSWER: The missing numerator is 2.
1. The denominator is multiplied by 2.
2. Multiply the numerator by the same factor: 1 x 2 = 2.

Finding Missing Equivalent Fractions Worksheets

ANSWER / CASE 2

Complete 2/4 = ?/12. Explain your multiplier.

1/2

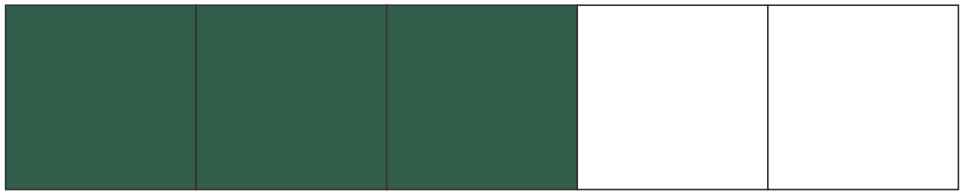

ANSWER: The missing numerator is 6.
1. The denominator is multiplied by 3.
2. Multiply the numerator by the same factor: 2 x 3 = 6.

Finding Missing Equivalent Fractions Worksheets

ANSWER / CASE 3

Complete 3/5 = ?/20. Explain your multiplier.

3/5

ANSWER: The missing numerator is 12.
1. The denominator is multiplied by 4.
2. Multiply the numerator by the same factor: 3 x 4 = 12.

Finding Missing Equivalent Fractions Worksheets

ANSWER / CASE 4

Complete 4/6 = ?/30. Explain your multiplier.

2/3

ANSWER: The missing numerator is 20.
1. The denominator is multiplied by 5.
2. Multiply the numerator by the same factor: 4 x 5 = 20.
