Comparing and Ordering Fractions Worksheets

REFERENCE / CASE 1

Arrange 2/5, 1/3, 3/4 from least to greatest. Justify with exact fraction comparisons.

METHOD: Use a common denominator or cross products for positive denominators. Place the smallest fraction first; do not compare denominators alone.
Use the separate practice sheet before checking the answer.

Comparing and Ordering Fractions Worksheets

REFERENCE / CASE 2

Arrange 1/2, 1/3, 3/4 from least to greatest. Justify with exact fraction comparisons.

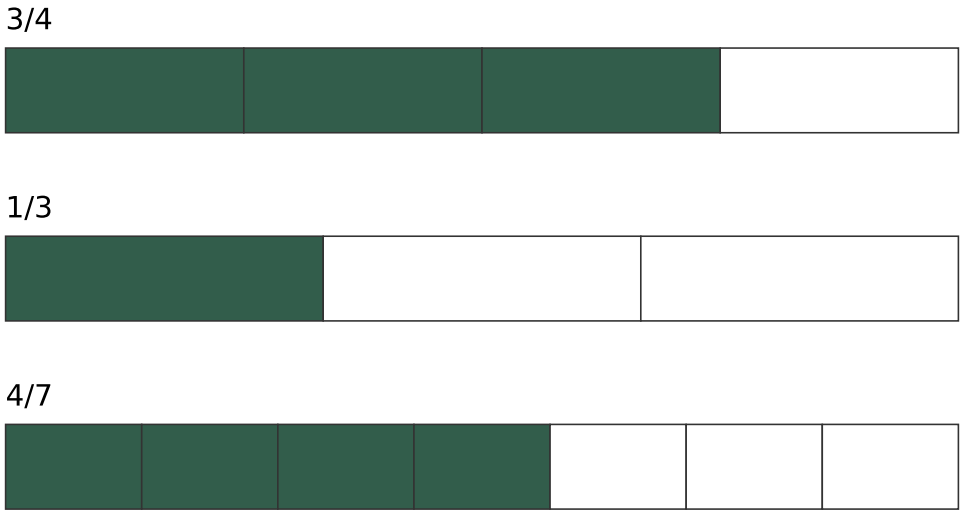

METHOD: Use a common denominator or cross products for positive denominators. Place the smallest fraction first; do not compare denominators alone.
Use the separate practice sheet before checking the answer.

Comparing and Ordering Fractions Worksheets

REFERENCE / CASE 3

Arrange 4/7, 1/3, 3/4 from least to greatest. Justify with exact fraction comparisons.

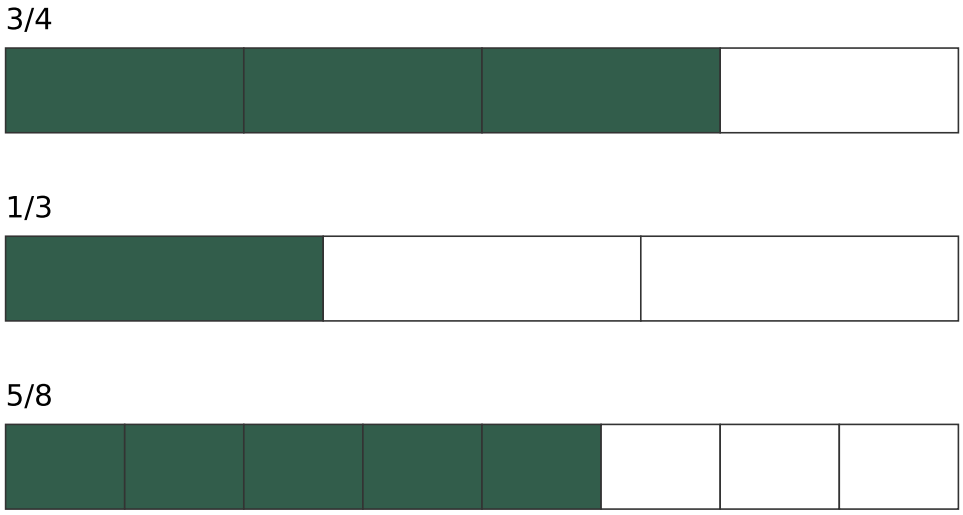

METHOD: Use a common denominator or cross products for positive denominators. Place the smallest fraction first; do not compare denominators alone.
Use the separate practice sheet before checking the answer.

Comparing and Ordering Fractions Worksheets

REFERENCE / CASE 4

Arrange 5/8, 1/3, 3/4 from least to greatest. Justify with exact fraction comparisons.

METHOD: Use a common denominator or cross products for positive denominators. Place the smallest fraction first; do not compare denominators alone.
Use the separate practice sheet before checking the answer.
