Choosing Operations in Fraction Word Problems Worksheets

REFERENCE / CASE 1

A 2/3 m ribbon and a 1/4 m ribbon are joined end to end without overlap. Find the total length. Choose and justify the operation.

1/4

2/3

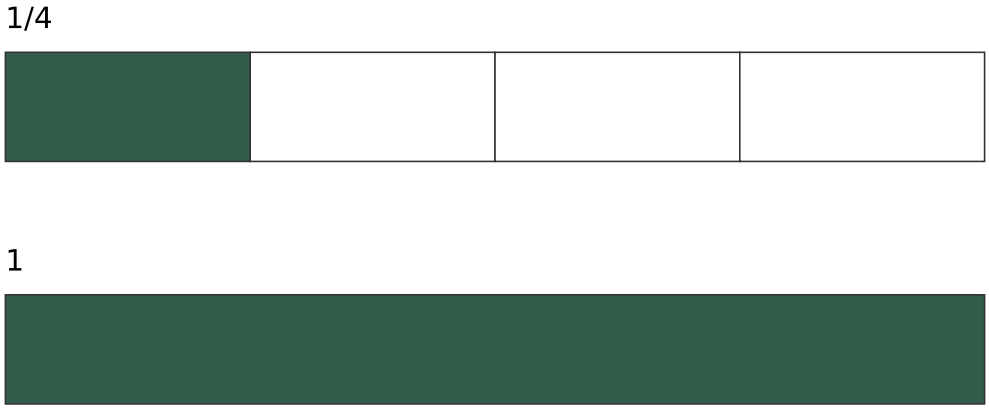

METHOD: Join lengths by adding. Calculate (2/3) + (1/4) = 11/12.
Use the separate practice sheet before checking the answer.

Choosing Operations in Fraction Word Problems Worksheets

REFERENCE / CASE 2

A ribbon is 1 m long. A 1/4 m piece is cut off. Find the remaining length. Choose and justify the operation.

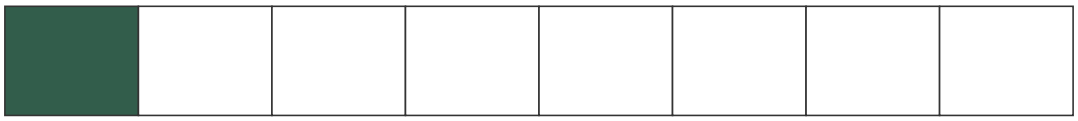

METHOD: Remove a length by subtracting. Calculate (1) - (1/4) = 3/4.
Use the separate practice sheet before checking the answer.

Choosing Operations in Fraction Word Problems Worksheets

REFERENCE / CASE 3

A ribbon is 4/3 m long. You use 1/4 of its length. How many metres do you use? Choose and justify the operation.

1/4

4/3

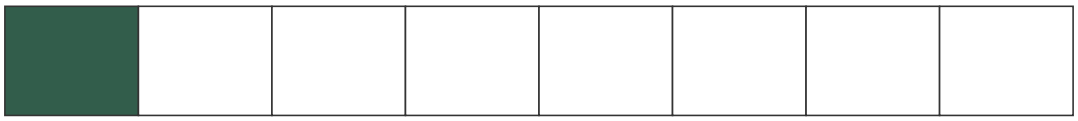

METHOD: A fraction of a length calls for multiplication. Calculate (4/3) * (1/4) = 1/3.
Use the separate practice sheet before checking the answer.

Choosing Operations in Fraction Word Problems Worksheets

REFERENCE / CASE 4

A container holds 5/3 L. How many 1/4 L cupfuls is this equivalent to? A fractional cupful is allowed. Choose and justify the operation.

1/4

5/3

METHOD: Divide the total volume by the capacity per cupful. Calculate (5/3) / (1/4) = 20/3. Use the separate practice sheet before checking the answer.
