Signed Integer Arithmetic Worksheets

STUDENT / CASE 1

Calculate (-3) + 7. Explain the sign of the result.

Your answer and reasoning:

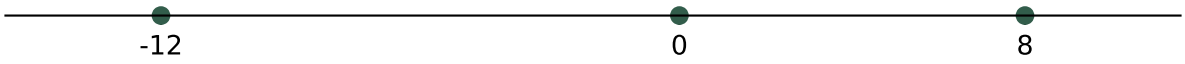

_____

_____

Signed Integer Arithmetic Worksheets

STUDENT / CASE 2

Calculate (-4) - 8. Explain the sign of the result.

Your answer and reasoning:

_____

_____

Signed Integer Arithmetic Worksheets

STUDENT / CASE 3

Calculate (-5) * 9. Explain the sign of the result.

First operand	Operation	Second operand
-5	*	9

Your answer and reasoning:

_____

_____

Signed Integer Arithmetic Worksheets

STUDENT / CASE 4

Calculate (-24) / 4. Explain the sign of the result.

First operand	Operation	Second operand
-24	/	4

Your answer and reasoning:

_____

_____
