Subtraction Across Zeros Worksheets

ANSWER / CASE 1

Subtract 267 from 1000. Show how you regroup through the zero columns.

Thousands	Hundreds	Tens	Ones
1	0	0	0
0	2	6	7

ANSWER: 733
1. Find the nearest nonzero place to the left and regroup across each intervening zero.
2. Subtract each column after regrouping; check by adding the result to the subtrahend.

Subtraction Across Zeros Worksheets

ANSWER / CASE 2

Subtract 298 from 1100. Show how you regroup through the zero columns.

Thousands	Hundreds	Tens	Ones
1	1	0	0
0	2	9	8

ANSWER: 802
1. Find the nearest nonzero place to the left and regroup across each intervening zero.
2. Subtract each column after regrouping; check by adding the result to the subtrahend.

Subtraction Across Zeros Worksheets

ANSWER / CASE 3

Subtract 329 from 1200. Show how you regroup through the zero columns.

Thousands	Hundreds	Tens	Ones
1	2	0	0
0	3	2	9

ANSWER: 871
1. Find the nearest nonzero place to the left and regroup across each intervening zero.
2. Subtract each column after regrouping; check by adding the result to the subtrahend.

Subtraction Across Zeros Worksheets

ANSWER / CASE 4

Subtract 360 from 1300. Show how you regroup through the zero columns.

Thousands	Hundreds	Tens	Ones
1	3	0	0
0	3	6	0

ANSWER: 940
1. Find the nearest nonzero place to the left and regroup across each intervening zero.
2. Subtract each column after regrouping; check by adding the result to the subtrahend.
