Order of Operations Worksheets

REFERENCE / CASE 1

Evaluate 8 + 3 x (7 - 2).

Stage	Operation
1	Parentheses
2	Multiplication
3	Addition

METHOD: Evaluate the parentheses first. Multiply before adding; do not simply work left to right.
Use the separate practice sheet before checking the answer.

Order of Operations Worksheets

REFERENCE / CASE 2

Evaluate 9 + 4 x (8 - 2).

Stage	Operation
1	Parentheses
2	Multiplication
3	Addition

METHOD: Evaluate the parentheses first. Multiply before adding; do not simply work left to right.
Use the separate practice sheet before checking the answer.

Order of Operations Worksheets

REFERENCE / CASE 3

Evaluate 10 + 5 x (9 - 2).

Stage	Operation
1	Parentheses
2	Multiplication
3	Addition

METHOD: Evaluate the parentheses first. Multiply before adding; do not simply work left to right.
Use the separate practice sheet before checking the answer.

Order of Operations Worksheets

REFERENCE / CASE 4

Evaluate 11 + 6 x (10 - 2).

Stage	Operation
1	Parentheses
2	Multiplication
3	Addition

METHOD: Evaluate the parentheses first. Multiply before adding; do not simply work left to right.
Use the separate practice sheet before checking the answer.
