Finding Elapsed Time Worksheets

REFERENCE / CASE 1

An activity begins at 8:35 and ends at 9:20 on the same morning. How long does it last?

Start	End
8:35	9:20

METHOD: Convert each time to minutes after midnight. Subtract the start time from the end time.
Use the separate practice sheet before checking the answer.

Finding Elapsed Time Worksheets

REFERENCE / CASE 2

An activity begins at 8:48 and ends at 9:53 on the same morning. How long does it last?

Start	End
8:48	9:53

METHOD: Convert each time to minutes after midnight. Subtract the start time from the end time.
Use the separate practice sheet before checking the answer.

Finding Elapsed Time Worksheets

REFERENCE / CASE 3

An activity begins at 9:01 and ends at 10:26 on the same morning. How long does it last?

Start	End
9:01	10:26

METHOD: Convert each time to minutes after midnight. Subtract the start time from the end time.
Use the separate practice sheet before checking the answer.

Finding Elapsed Time Worksheets

REFERENCE / CASE 4

An activity begins at 9:14 and ends at 10:59 on the same morning. How long does it last?

Start	End
9:14	10:59

METHOD: Convert each time to minutes after midnight. Subtract the start time from the end time.
Use the separate practice sheet before checking the answer.
