Counting and Drawing Matching Groups Worksheets

REFERENCE / CASE 1

Count the counters in the reference diagram. Write the total and draw another group with exactly the same number.

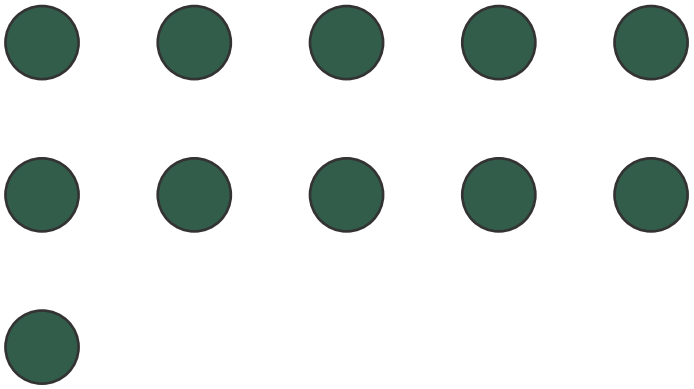

METHOD: Mark each object as you count it once. Your new group must match the count, but its arrangement may differ.
Use the separate practice sheet before checking the answer.

Counting and Drawing Matching Groups Worksheets

REFERENCE / CASE 2

Count the counters in the reference diagram. Write the total and draw another group with exactly the same number.

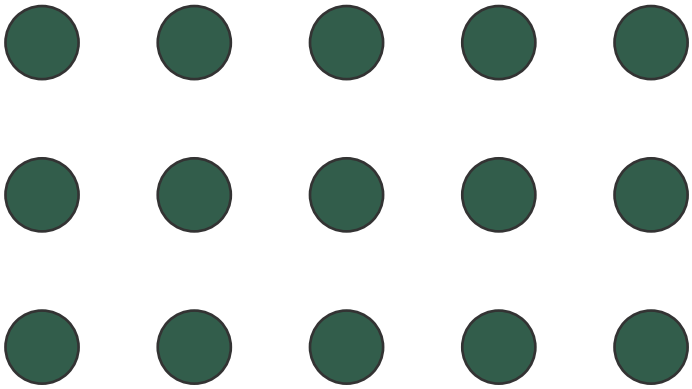

METHOD: Mark each object as you count it once. Your new group must match the count, but its arrangement may differ.
Use the separate practice sheet before checking the answer.

Counting and Drawing Matching Groups Worksheets

REFERENCE / CASE 3

Count the counters in the reference diagram. Write the total and draw another group with exactly the same number.

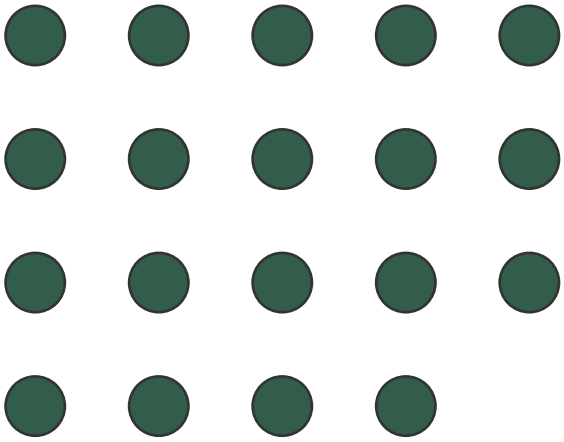

METHOD: Mark each object as you count it once. Your new group must match the count, but its arrangement may differ.
Use the separate practice sheet before checking the answer.

Counting and Drawing Matching Groups Worksheets

REFERENCE / CASE 4

Count the counters in the reference diagram. Write the total and draw another group with exactly the same number.

METHOD: Mark each object as you count it once. Your new group must match the count, but its arrangement may differ.
Use the separate practice sheet before checking the answer.
