How to Draw Crawfish — Free Practice Sheets

ANSWER / CASE 1

crawfish: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

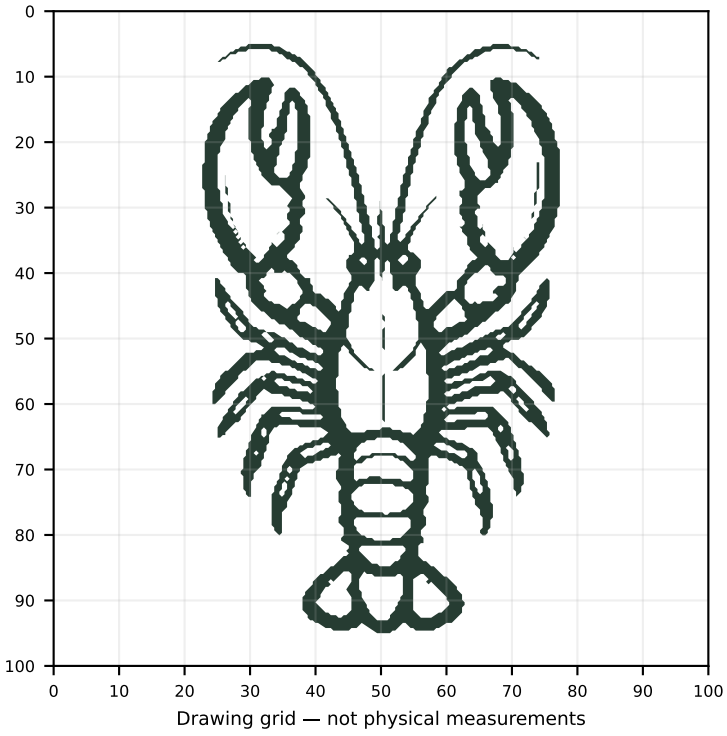

ANSWER: Example solution: preserve Two large symmetrical front claws raised above the body, Segmented, tapering tail ending in a fan-shaped telson, Multiple thin walking legs attached along the sides of the cephalothorax. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a central vertical oval for the cephalothorax and a segmented, tapering tail below it.
2. Add two large claw arms on either side, mirroring the curved pincers at the top.
3. Attach several thin, jointed walking legs along the lower sides of the body.
4. Draw long antennae from the head and finish the tail with a small fan-shaped tip.

How to Draw Crawfish — Free Practice Sheets

ANSWER / CASE 2

crawfish: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

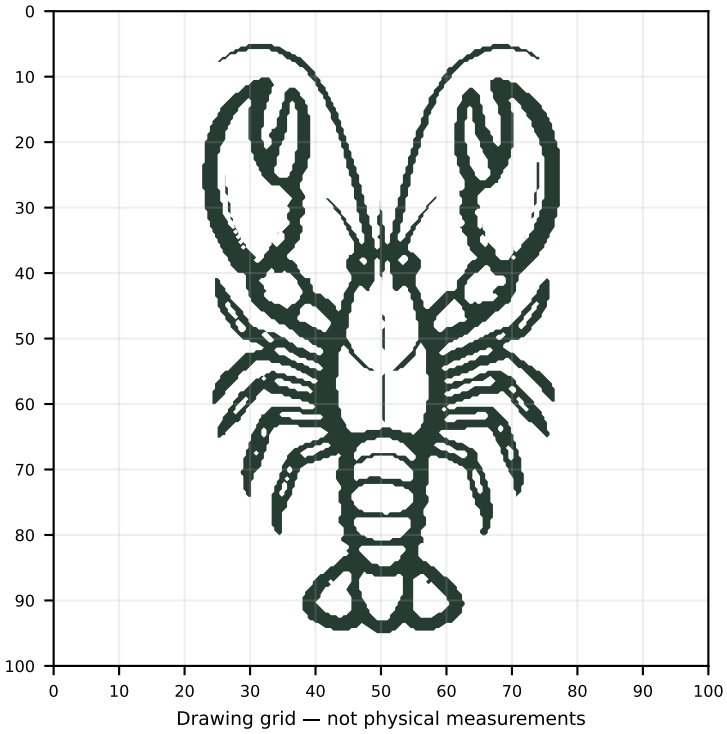

ANSWER: Example solution: preserve Two large symmetrical front claws raised above the body, Segmented, tapering tail ending in a fan-shaped telson, Multiple thin walking legs attached along the sides of the cephalothorax. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a central vertical oval for the cephalothorax and a segmented, tapering tail below it.
2. Add two large claw arms on either side, mirroring the curved pincers at the top.
3. Attach several thin, jointed walking legs along the lower sides of the body.
4. Draw long antennae from the head and finish the tail with a small fan-shaped tip.

ANSWER / CASE 3

crawfish: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

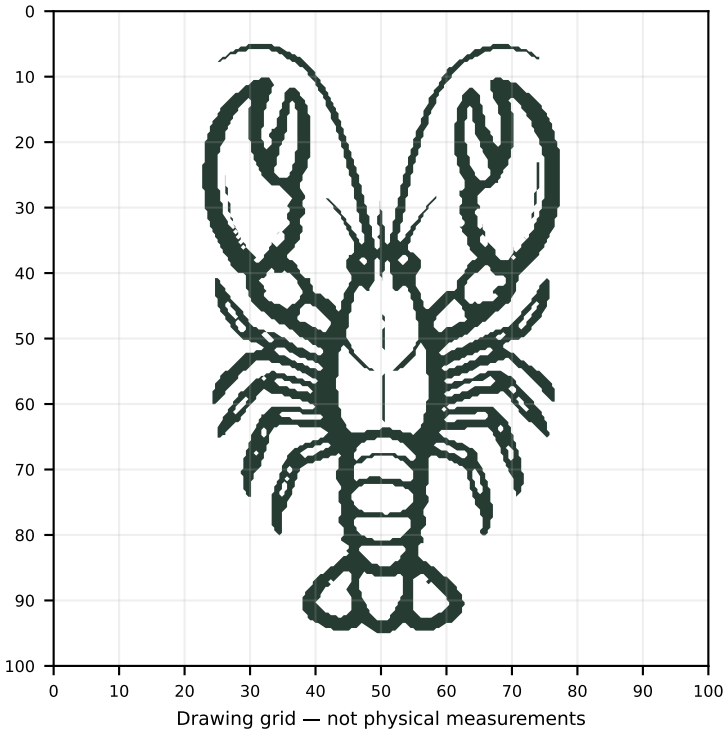

ANSWER: Example solution: preserve Two large symmetrical front claws raised above the body, Segmented, tapering tail ending in a fan-shaped telson, Multiple thin walking legs attached along the sides of the cephalothorax. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a central vertical oval for the cephalothorax and a segmented, tapering tail below it.
2. Add two large claw arms on either side, mirroring the curved pincers at the top.
3. Attach several thin, jointed walking legs along the lower sides of the body.
4. Draw long antennae from the head and finish the tail with a small fan-shaped tip.

How to Draw Crawfish — Free Practice Sheets

ANSWER / CASE 4

crawfish: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve Two large symmetrical front claws raised above the body, Segmented, tapering tail ending in a fan-shaped telson, Multiple thin walking legs attached along the sides of the cephalothorax. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a central vertical oval for the cephalothorax and a segmented, tapering tail below it.
2. Add two large claw arms on either side, mirroring the curved pincers at the top.
3. Attach several thin, jointed walking legs along the lower sides of the body.
4. Draw long antennae from the head and finish the tail with a small fan-shaped tip.
