How to Draw Axolotl — Free Practice Sheets

ANSWER / CASE 1

axolotl: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

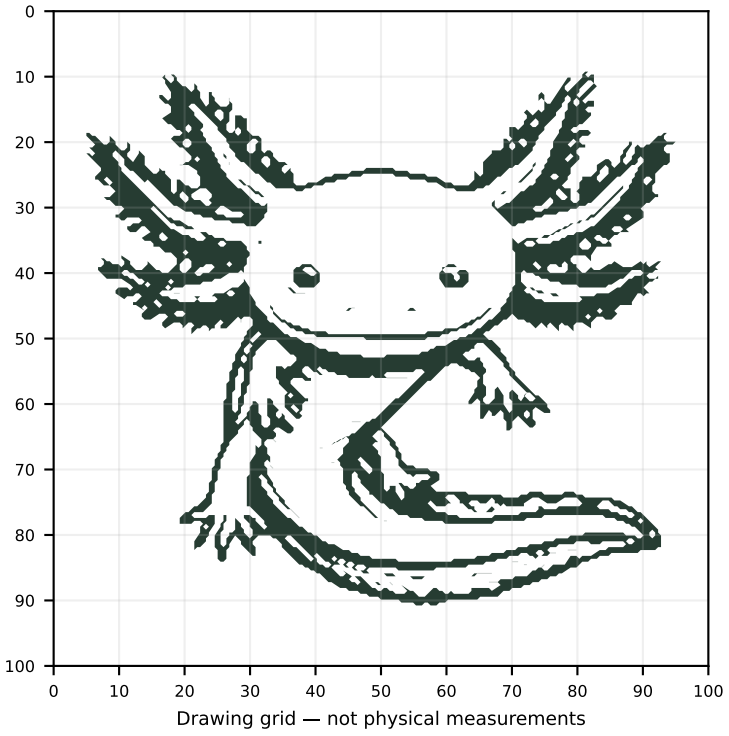

ANSWER: Example solution: preserve feathery external gills branching from both sides of the head, wide flat head with small dark eyes and a curved smiling mouth, long tapering tail with a fin-like edge. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a wide, rounded head shape with a gentle smile and two small eyes.
2. Add three feathery gill stalks on each side of the head, branching outward.
3. Sketch a short body with two front legs and two hind legs attached at the sides.
4. Extend a long tail from the body, curving it to one side and adding a fin edge.
