How to Draw Spider — Free Practice Sheets

REFERENCE / CASE 1

spider: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

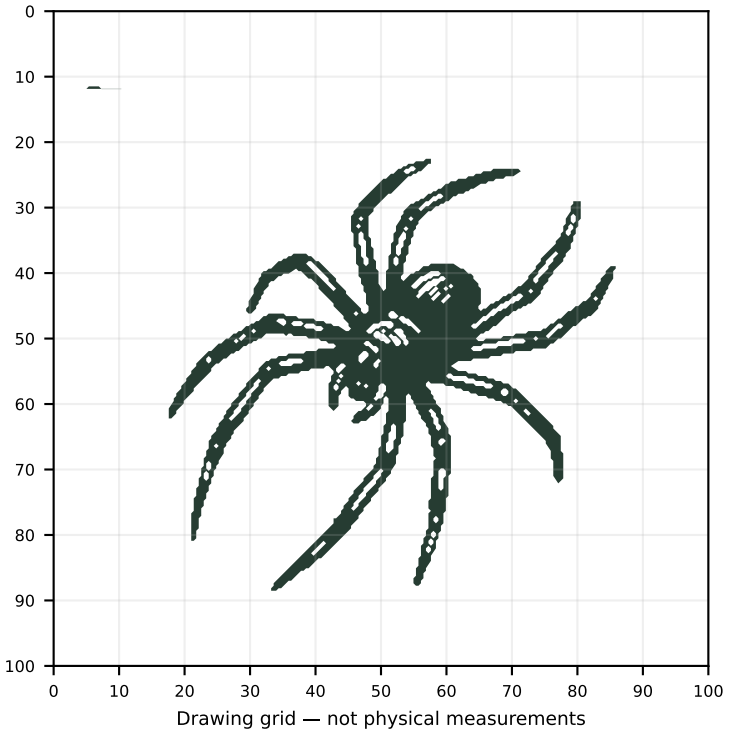

METHOD: Draw two adjacent ovals: a smaller front oval for the cephalothorax and a larger rear oval for the abdomen. Add four jointed legs to each side of the cephalothorax, angling them outward and downward with visible knee bends. Draw small mouthparts/pedipalps at the front of the cephalothorax. Outline the body segments and legs with clean lines, then add simple shading or segment lines to define the joints.
Use the separate practice sheet before checking the answer.

How to Draw Spider — Free Practice Sheets

REFERENCE / CASE 2

spider: Copy the reference onto the blank grid, using matching grid intersections.
Compare with the separate full reference sheet.

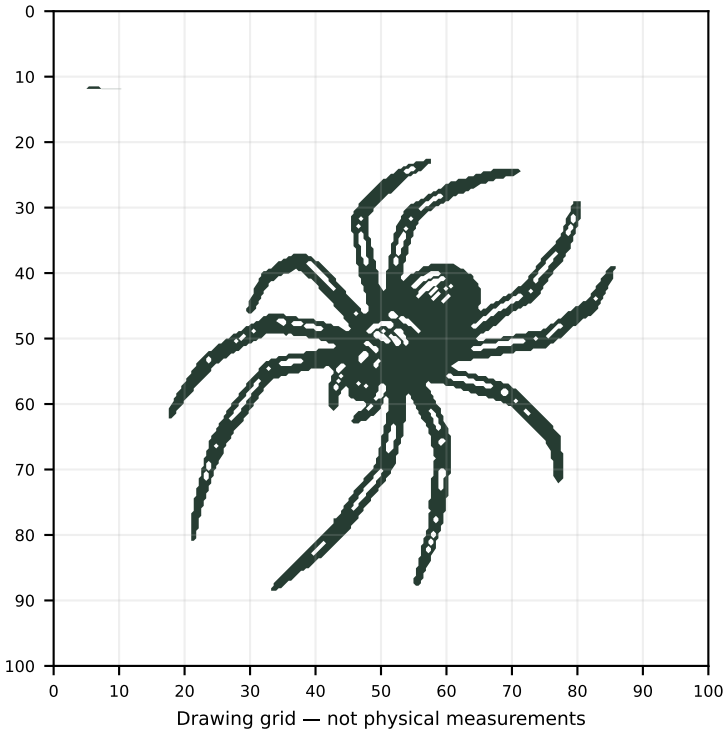

METHOD: Draw two adjacent ovals: a smaller front oval for the cephalothorax and a larger rear oval for the abdomen. Add four jointed legs to each side of the cephalothorax, angling them outward and downward with visible knee bends. Draw small mouthparts/pedipalps at the front of the cephalothorax. Outline the body segments and legs with clean lines, then add simple shading or segment lines to define the joints.
Use the separate practice sheet before checking the answer.

How to Draw Spider — Free Practice Sheets

REFERENCE / CASE 3

spider: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

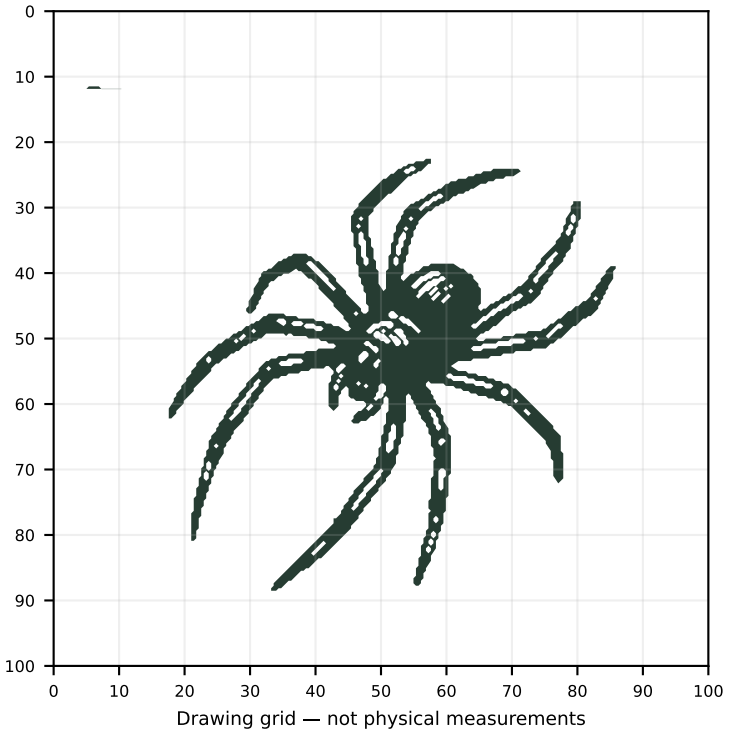

Drawing grid — not physical measurements

METHOD: Draw two adjacent ovals: a smaller front oval for the cephalothorax and a larger rear oval for the abdomen. Add four jointed legs to each side of the cephalothorax, angling them outward and downward with visible knee bends. Draw small mouthparts/pedipalps at the front of the cephalothorax. Outline the body segments and legs with clean lines, then add simple shading or segment lines to define the joints.
Use the separate practice sheet before checking the answer.

How to Draw Spider — Free Practice Sheets

REFERENCE / CASE 4

spider: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw two adjacent ovals: a smaller front oval for the cephalothorax and a larger rear oval for the abdomen. Add four jointed legs to each side of the cephalothorax, angling them outward and downward with visible knee bends. Draw small mouthparts/pedipalps at the front of the cephalothorax. Outline the body segments and legs with clean lines, then add simple shading or segment lines to define the joints.
Use the separate practice sheet before checking the answer.
