How to Draw Pterodactyl — Free Practice Sheets

REFERENCE / CASE 1

pterodactyl: Trace the reference outline, then practise the contour independently.
Compare with the separate full reference sheet.

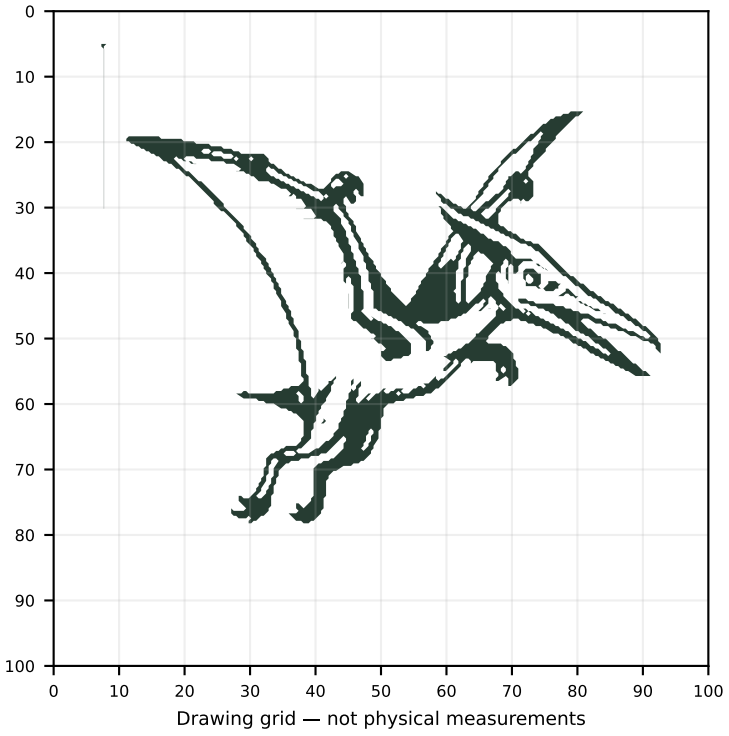

METHOD: Draw the long pointed beak and skull, then add the backward-sweeping crest behind the head. Sketch the body as a tapered oval connecting the neck to the tail. Attach the large membrane wings to the upper back, drawing the wing-finger and claw at the leading edge. Add two legs below the body with small clawed feet, then outline the tail and wing membranes.
Use the separate practice sheet before checking the answer.

How to Draw Pterodactyl — Free Practice Sheets

REFERENCE / CASE 2

pterodactyl: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

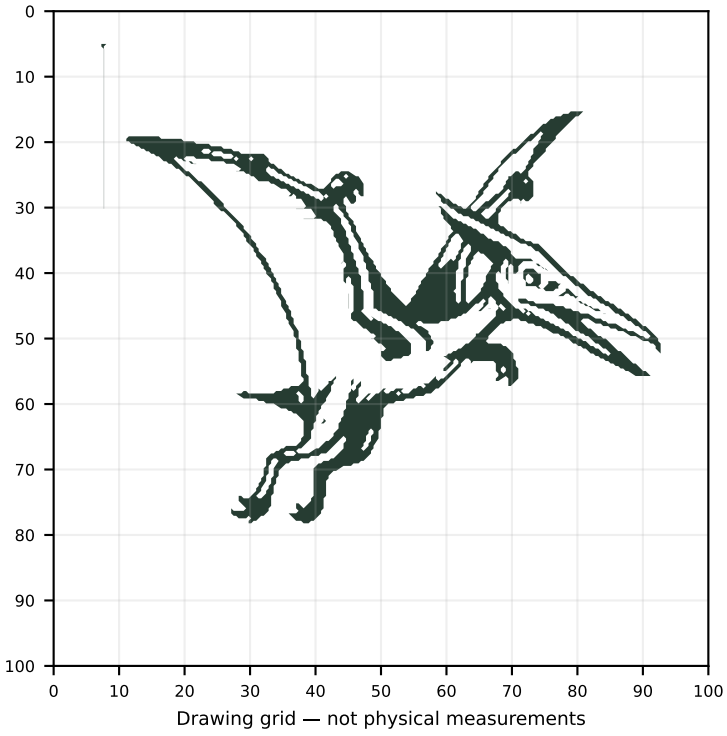

METHOD: Draw the long pointed beak and skull, then add the backward-sweeping crest behind the head. Sketch the body as a tapered oval connecting the neck to the tail. Attach the large membrane wings to the upper back, drawing the wing-finger and claw at the leading edge. Add two legs below the body with small clawed feet, then outline the tail and wing membranes.
Use the separate practice sheet before checking the answer.

REFERENCE / CASE 3

pterodactyl: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

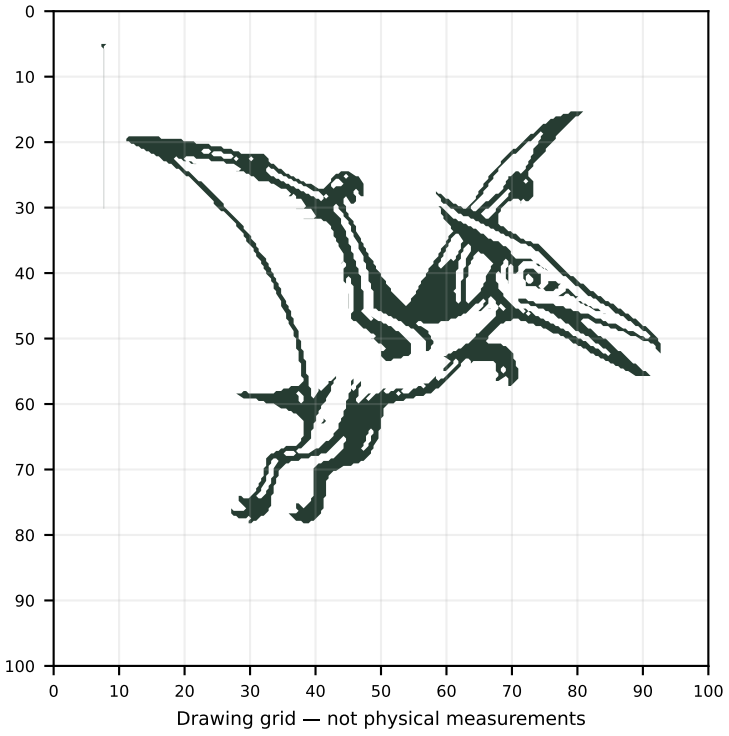

METHOD: Draw the long pointed beak and skull, then add the backward-sweeping crest behind the head. Sketch the body as a tapered oval connecting the neck to the tail. Attach the large membrane wings to the upper back, drawing the wing-finger and claw at the leading edge. Add two legs below the body with small clawed feet, then outline the tail and wing membranes.
Use the separate practice sheet before checking the answer.

How to Draw Pterodactyl — Free Practice Sheets

REFERENCE / CASE 4

pterodactyl: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw the long pointed beak and skull, then add the backward-sweeping crest behind the head. Sketch the body as a tapered oval connecting the neck to the tail. Attach the large membrane wings to the upper back, drawing the wing-finger and claw at the leading edge. Add two legs below the body with small clawed feet, then outline the tail and wing membranes.
Use the separate practice sheet before checking the answer.
