How to Draw Sugar Glider — Free Practice Sheets

ANSWER / CASE 1

sugar glider: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

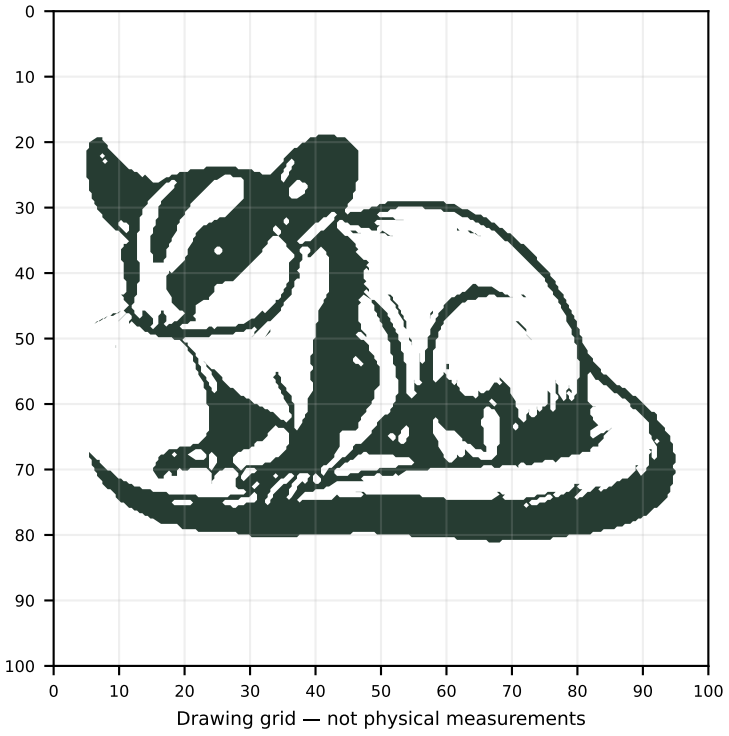

ANSWER: Example solution: preserve large round dark eyes, long bushy tail curving around the body, fluffy gliding membrane visible as a fold along the side. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a rounded oval for the body and a smaller circle for the head, then connect with a short neck.
2. Add the large round eyes, small pointed ears, and the dark stripe running from the nose over the head.
3. Sketch the gliding membrane as a curved fold along the side of the body, connecting the front and back limbs.
4. Draw the long bushy tail sweeping around the base of the body, and add the visible front and hind legs with small claws.

How to Draw Sugar Glider — Free Practice Sheets

ANSWER / CASE 2

sugar glider: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

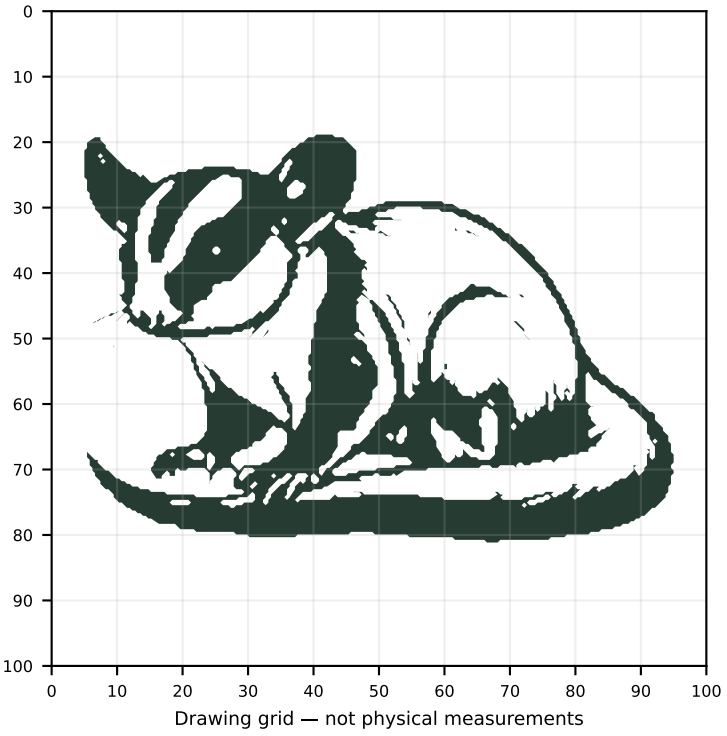

Drawing grid — not physical measurements

ANSWER: Example solution: preserve large round dark eyes, long bushy tail curving around the body, fluffy gliding membrane visible as a fold along the side. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a rounded oval for the body and a smaller circle for the head, then connect with a short neck.
2. Add the large round eyes, small pointed ears, and the dark stripe running from the nose over the head.
3. Sketch the gliding membrane as a curved fold along the side of the body, connecting the front and back limbs.
4. Draw the long bushy tail sweeping around the base of the body, and add the visible front and hind legs with small claws.
