How to Draw Octopus — Free Practice Sheets

ANSWER / CASE 1

octopus: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

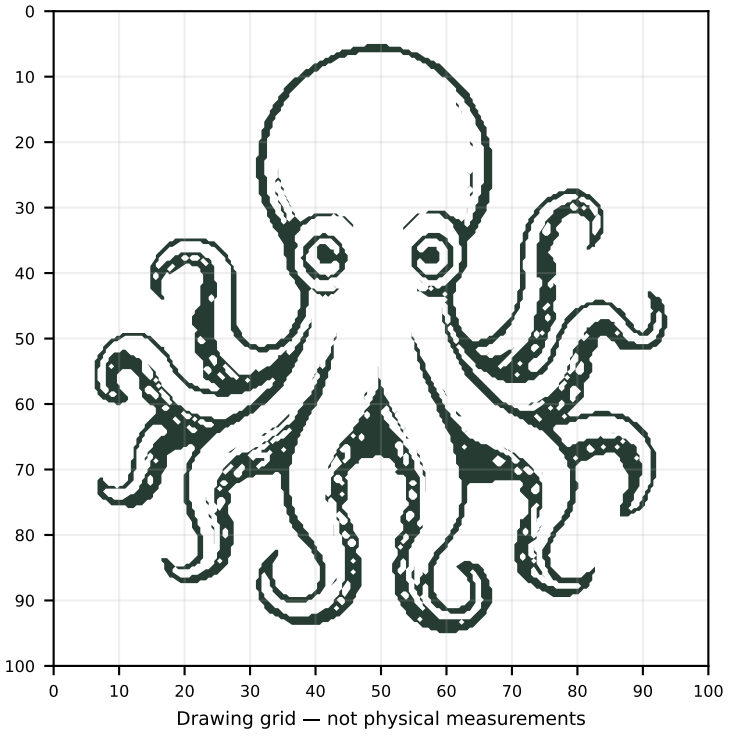

ANSWER: Example solution: preserve bulbous rounded head/mantle, two large round eyes on the front of the head, multiple curling arms with visible suckers along the inner edges. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large oval for the bulbous head/mantle.
2. Add two large circular eyes with dark pupils on the lower front of the head.
3. Draw eight curling arms radiating outward and downward from the base of the head, using curved lines.
4. Add small circular suckers along the inner curves of each arm and outline the arm edges.

How to Draw Octopus — Free Practice Sheets

ANSWER / CASE 2

octopus: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

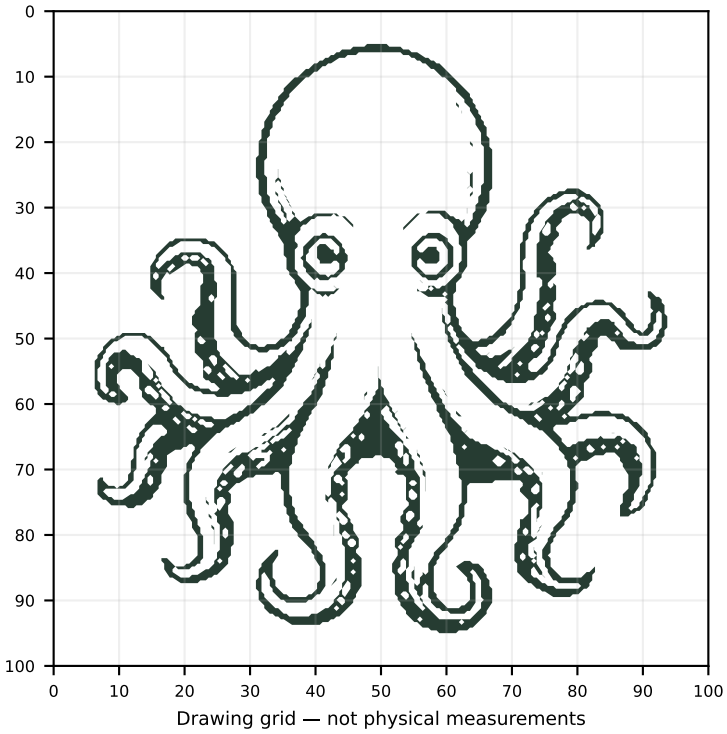

ANSWER: Example solution: preserve bulbous rounded head/mantle, two large round eyes on the front of the head, multiple curling arms with visible suckers along the inner edges. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large oval for the bulbous head/mantle.
2. Add two large circular eyes with dark pupils on the lower front of the head.
3. Draw eight curling arms radiating outward and downward from the base of the head, using curved lines.
4. Add small circular suckers along the inner curves of each arm and outline the arm edges.

ANSWER / CASE 3

octopus: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

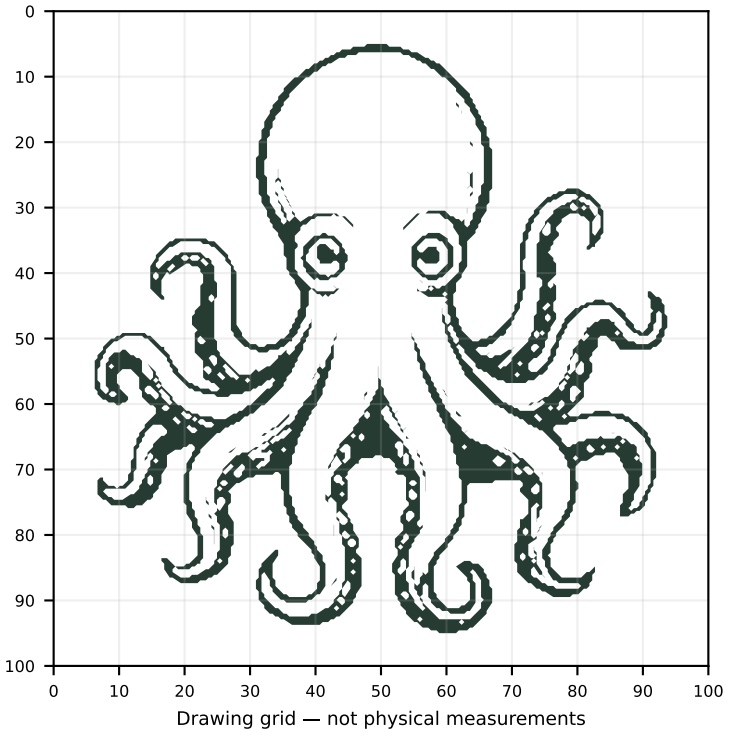

ANSWER: Example solution: preserve bulbous rounded head/mantle, two large round eyes on the front of the head, multiple curling arms with visible suckers along the inner edges. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large oval for the bulbous head/mantle.
2. Add two large circular eyes with dark pupils on the lower front of the head.
3. Draw eight curling arms radiating outward and downward from the base of the head, using curved lines.
4. Add small circular suckers along the inner curves of each arm and outline the arm edges.

How to Draw Octopus — Free Practice Sheets

ANSWER / CASE 4

octopus: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve bulbous rounded head/mantle, two large round eyes on the front of the head, multiple curling arms with visible suckers along the inner edges. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large oval for the bulbous head/mantle.
2. Add two large circular eyes with dark pupils on the lower front of the head.
3. Draw eight curling arms radiating outward and downward from the base of the head, using curved lines.
4. Add small circular suckers along the inner curves of each arm and outline the arm edges.
