How to Draw Crab — Free Practice Sheets

REFERENCE / CASE 1

crab: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

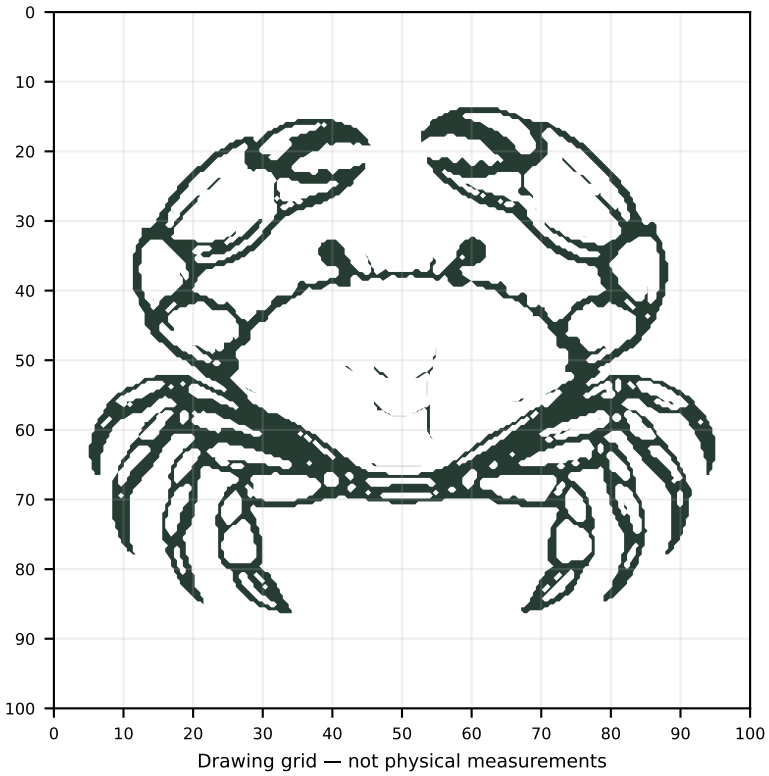

METHOD: Draw a wide oval for the main shell, adding a central segmented line pattern. Sketch two large claw arms curving upward from the top sides of the shell, ending in pincers. Add jointed walking legs along the lower left and right sides of the shell, angling outward. Draw two small eye stalks on top of the shell and outline the leg segments for clarity.
Use the separate practice sheet before checking the answer.
