How to Draw Cicada — Free Practice Sheets

REFERENCE / CASE 1

cicada: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

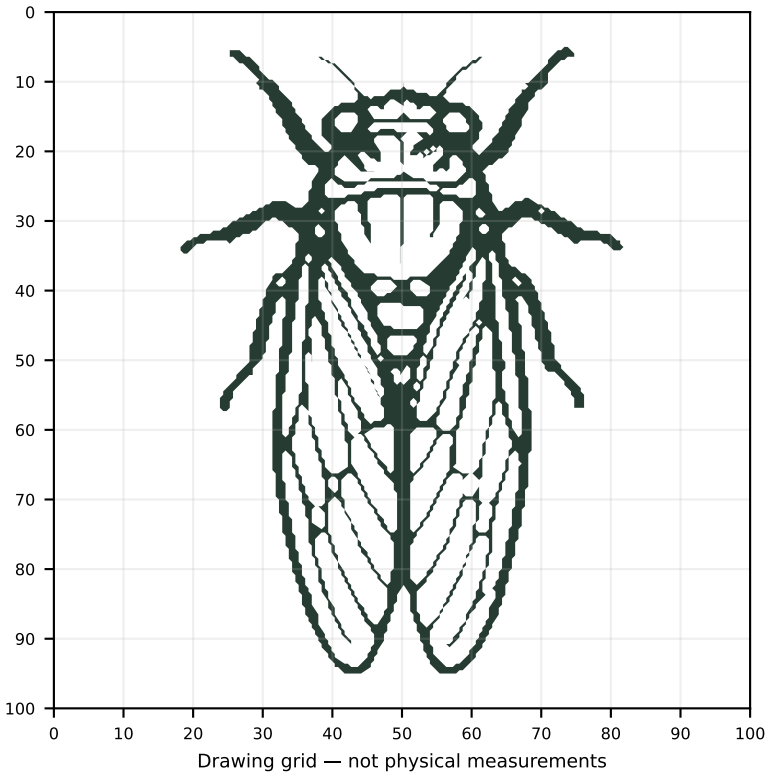

METHOD: Draw a vertical oval for the stout body and add a wide head with two round eyes on top. Sketch the broad wings as two long, rounded shapes extending down from the thorax, overlapping slightly at the center. Add vein lines inside the wings using a few curved longitudinal lines and cross-veins. Draw six legs from the thorax: two front legs angled forward, two middle legs out to the sides, and two hind legs angled back.
Use the separate practice sheet before checking the answer.

How to Draw Cicada — Free Practice Sheets

REFERENCE / CASE 2

cicada: Copy the reference onto the blank grid, using matching grid intersections.
Compare with the separate full reference sheet.

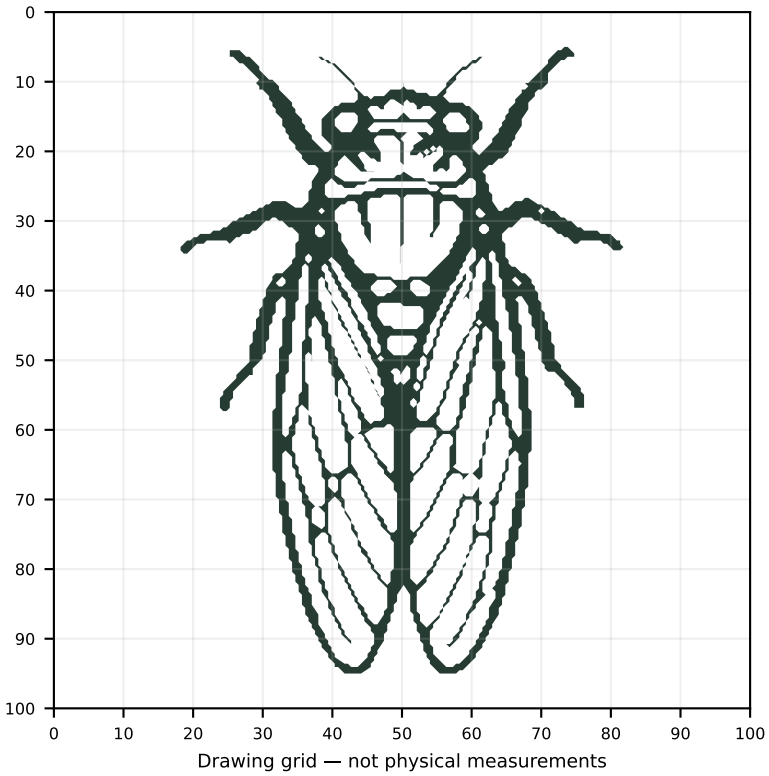

METHOD: Draw a vertical oval for the stout body and add a wide head with two round eyes on top. Sketch the broad wings as two long, rounded shapes extending down from the thorax, overlapping slightly at the center. Add vein lines inside the wings using a few curved longitudinal lines and cross-veins. Draw six legs from the thorax: two front legs angled forward, two middle legs out to the sides, and two hind legs angled back.
Use the separate practice sheet before checking the answer.
