How to Draw Platypus — Free Practice Sheets

ANSWER / CASE 1

platypus: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

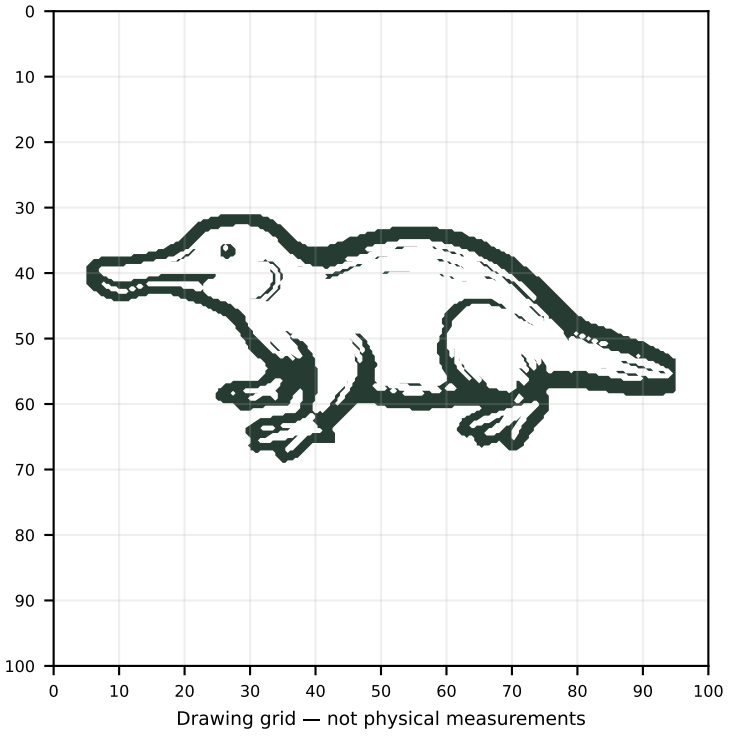

ANSWER: Example solution: preserve flat duck-like bill extending from the head, beaver-like flat tail tapering behind the body, webbed feet visible on the front and rear limbs. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw an elongated horizontal body outline with a rounded back and a low belly line.
2. Attach a broad, flat duck-like bill to the front of the head and add a small eye above it.
3. Extend a flat, tapering beaver-like tail from the rear of the body.
4. Add two front legs and two rear legs with webbed feet, then outline the body with a thicker contour line.

ANSWER / CASE 3

platypus: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

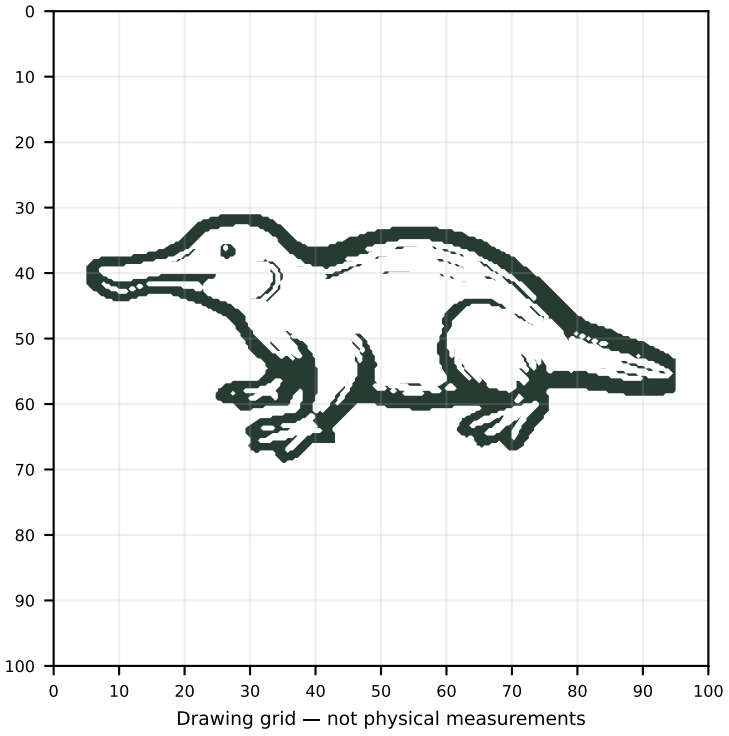

ANSWER: Example solution: preserve flat duck-like bill extending from the head, beaver-like flat tail tapering behind the body, webbed feet visible on the front and rear limbs. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw an elongated horizontal body outline with a rounded back and a low belly line.
2. Attach a broad, flat duck-like bill to the front of the head and add a small eye above it.
3. Extend a flat, tapering beaver-like tail from the rear of the body.
4. Add two front legs and two rear legs with webbed feet, then outline the body with a thicker contour line.

How to Draw Platypus — Free Practice Sheets

ANSWER / CASE 4

platypus: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve flat duck-like bill extending from the head, beaver-like flat tail tapering behind the body, webbed feet visible on the front and rear limbs. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw an elongated horizontal body outline with a rounded back and a low belly line.
2. Attach a broad, flat duck-like bill to the front of the head and add a small eye above it.
3. Extend a flat, tapering beaver-like tail from the rear of the body.
4. Add two front legs and two rear legs with webbed feet, then outline the body with a thicker contour line.
