How to Draw Squirrel — Free Practice Sheets

ANSWER / CASE 1

squirrel: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

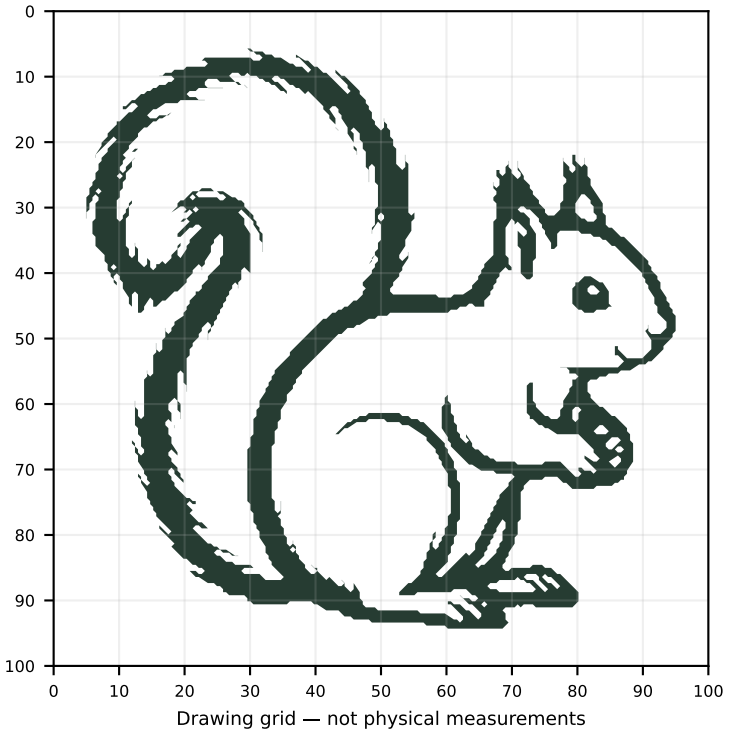

ANSWER: Example solution: preserve large bushy tail curling up behind the body, small rounded body with a curved back, front paws held together holding a small round food item. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the large bushy tail as a thick curved shape sweeping up and over the back.
2. Sketch the rounded body outline connected to the base of the tail, with a curved back line.
3. Add the head with pointed ears, eye, and snout at the upper right of the body.
4. Draw the front arms bent inward holding a small round nut, and add the visible hind leg and foot at the bottom.
