How to Draw Sailfish — Free Practice Sheets

ANSWER / CASE 1

sailfish: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

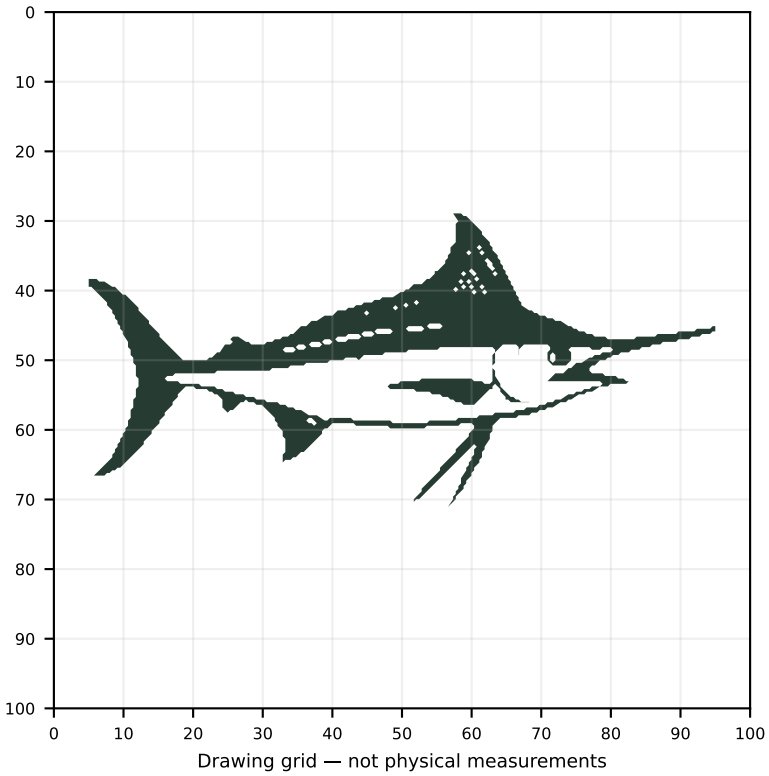

ANSWER: Example solution: preserve large sail-like dorsal fin with vertical striations, long pointed bill extending from the snout, streamlined fusiform body with a forked tail. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the streamlined body outline as a long tapered oval, then add the forked tail at the rear.
2. Attach the long pointed bill to the front of the head and place the eye just behind the bill base.
3. Draw the tall sail-like dorsal fin along the back, adding vertical lines inside it for the fin rays.
4. Add the pectoral and pelvic fins below the body and finish with the lateral line and gill cover details.

How to Draw Sailfish — Free Practice Sheets

ANSWER / CASE 2

sailfish: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

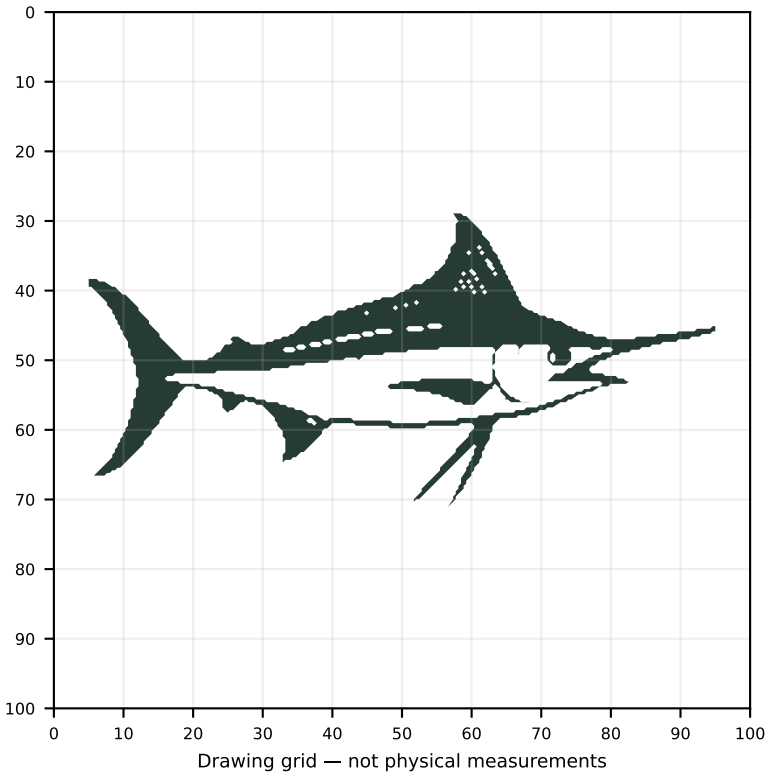

ANSWER: Example solution: preserve large sail-like dorsal fin with vertical striations, long pointed bill extending from the snout, streamlined fusiform body with a forked tail. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the streamlined body outline as a long tapered oval, then add the forked tail at the rear.
2. Attach the long pointed bill to the front of the head and place the eye just behind the bill base.
3. Draw the tall sail-like dorsal fin along the back, adding vertical lines inside it for the fin rays.
4. Add the pectoral and pelvic fins below the body and finish with the lateral line and gill cover details.

ANSWER / CASE 3

sailfish: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

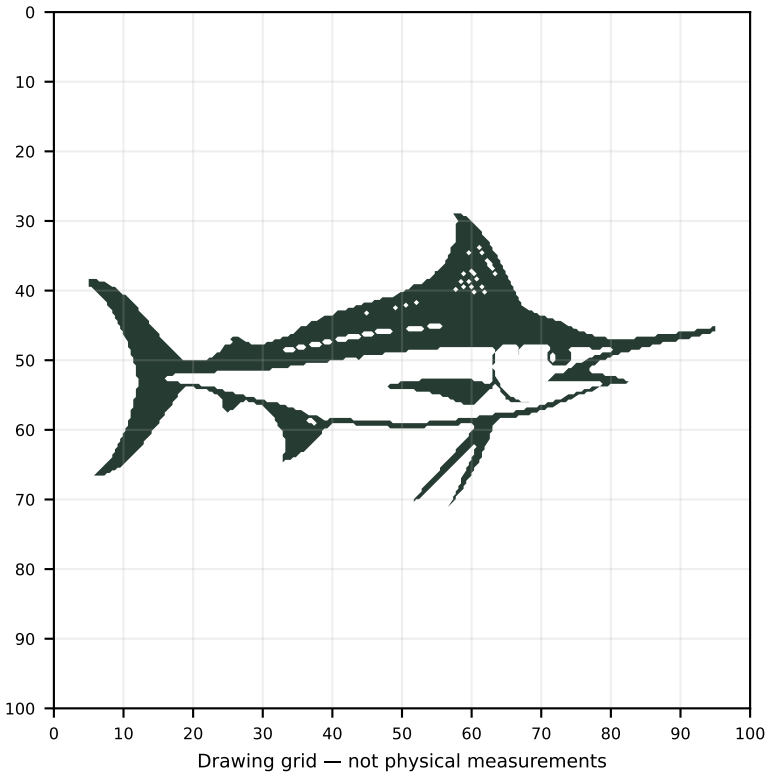

ANSWER: Example solution: preserve large sail-like dorsal fin with vertical striations, long pointed bill extending from the snout, streamlined fusiform body with a forked tail. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the streamlined body outline as a long tapered oval, then add the forked tail at the rear.
2. Attach the long pointed bill to the front of the head and place the eye just behind the bill base.
3. Draw the tall sail-like dorsal fin along the back, adding vertical lines inside it for the fin rays.
4. Add the pectoral and pelvic fins below the body and finish with the lateral line and gill cover details.

How to Draw Sailfish — Free Practice Sheets

ANSWER / CASE 4

sailfish: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve large sail-like dorsal fin with vertical striations, long pointed bill extending from the snout, streamlined fusiform body with a forked tail. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the streamlined body outline as a long tapered oval, then add the forked tail at the rear.
2. Attach the long pointed bill to the front of the head and place the eye just behind the bill base.
3. Draw the tall sail-like dorsal fin along the back, adding vertical lines inside it for the fin rays.
4. Add the pectoral and pelvic fins below the body and finish with the lateral line and gill cover details.
