How to Draw Tadpole — Free Practice Sheets

REFERENCE / CASE 1

tadpole: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

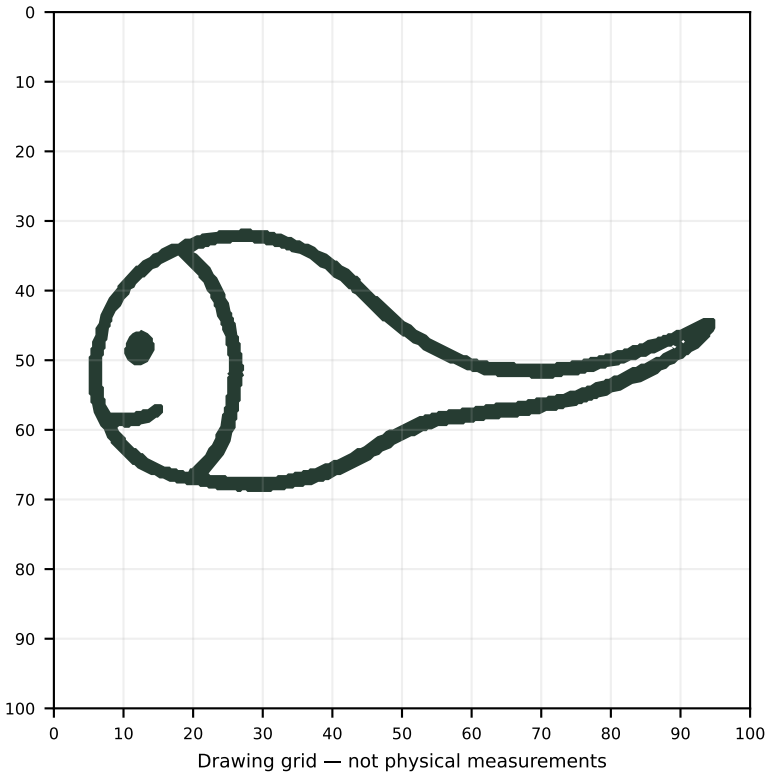

METHOD: Draw a large circle for the round head. Add a small dot for the eye and a short curved line for the mouth inside the head. Draw a curved line across the head to separate it from the body. Extend two long curved lines from the back of the head, tapering them to a point to form the tail.
Use the separate practice sheet before checking the answer.

REFERENCE / CASE 2

tadpole: Copy the reference onto the blank grid, using matching grid intersections.
Compare with the separate full reference sheet.

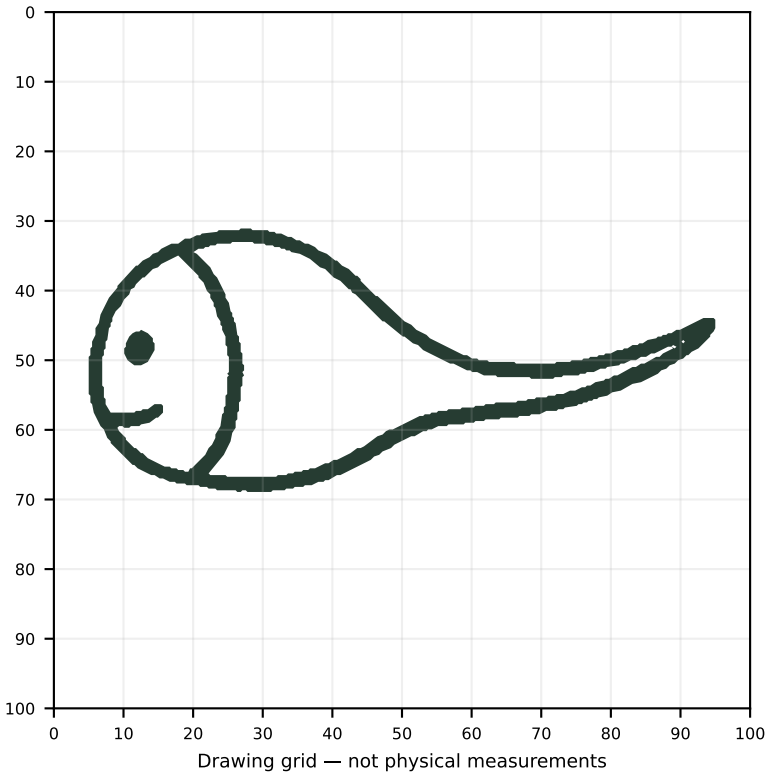

METHOD: Draw a large circle for the round head. Add a small dot for the eye and a short curved line for the mouth inside the head. Draw a curved line across the head to separate it from the body. Extend two long curved lines from the back of the head, tapering them to a point to form the tail.
Use the separate practice sheet before checking the answer.

How to Draw Tadpole — Free Practice Sheets

REFERENCE / CASE 3

tadpole: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

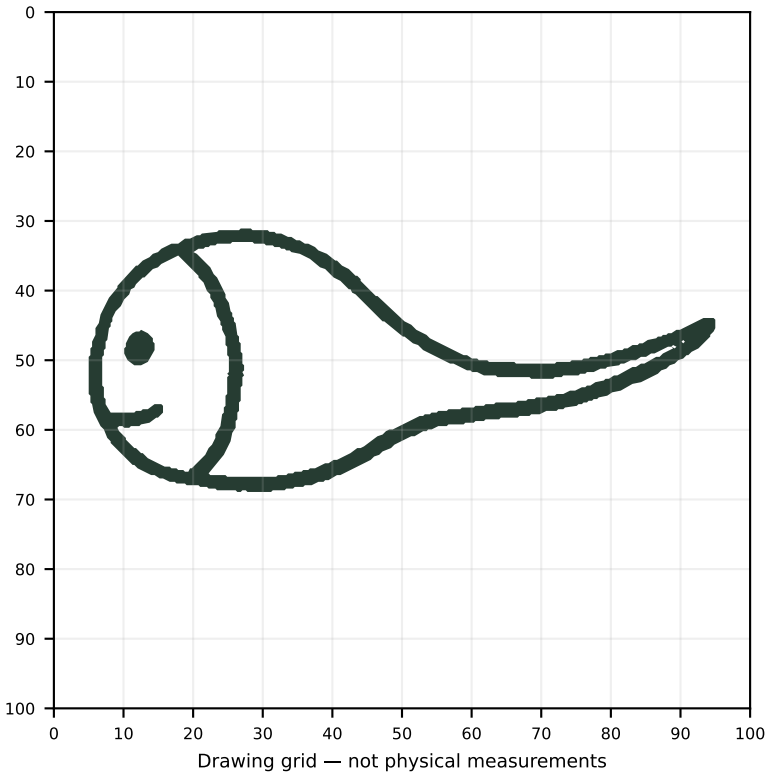

METHOD: Draw a large circle for the round head. Add a small dot for the eye and a short curved line for the mouth inside the head. Draw a curved line across the head to separate it from the body. Extend two long curved lines from the back of the head, tapering them to a point to form the tail.
Use the separate practice sheet before checking the answer.

How to Draw Tadpole — Free Practice Sheets

REFERENCE / CASE 4

tadpole: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw a large circle for the round head. Add a small dot for the eye and a short curved line for the mouth inside the head. Draw a curved line across the head to separate it from the body. Extend two long curved lines from the back of the head, tapering them to a point to form the tail.
Use the separate practice sheet before checking the answer.
