How to Draw Cobra — Free Practice Sheets

ANSWER / CASE 1

cobra: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

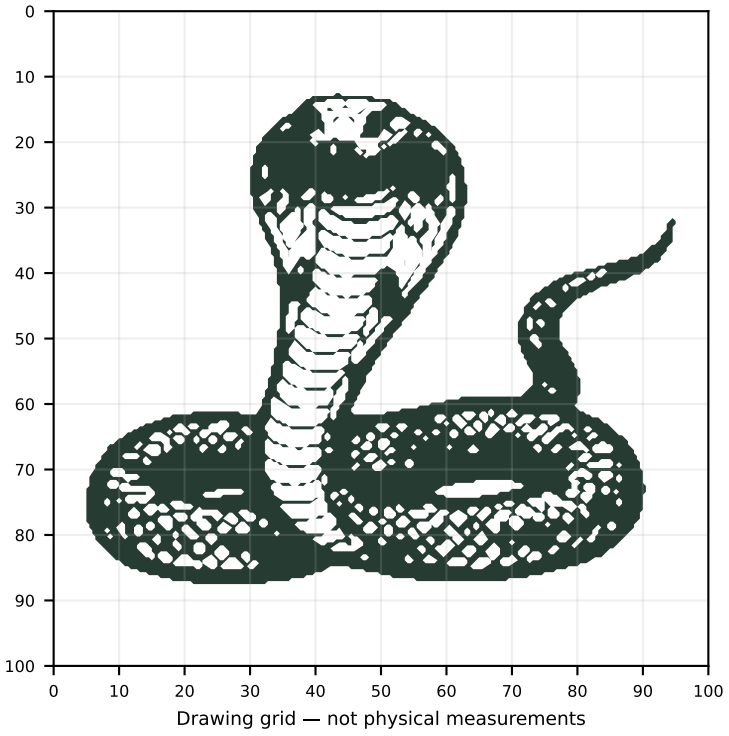

ANSWER: Example solution: preserve flared hood with visible eye markings, raised front body with banded ventral scales, coiled lower body with patterned dorsal scales and a tapering tail. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the flared hood as a rounded, symmetrical shape with the head at the top center.
2. Extend a raised, slightly curved neck downward from the hood, adding horizontal band lines for the ventral scales.
3. Draw the lower body as two overlapping coils beneath the neck, using a rounded loop shape.
4. Add a thin, curved tail extending up and to the right from the rear coil, then outline the scale pattern.

How to Draw Cobra — Free Practice Sheets

ANSWER / CASE 2

cobra: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

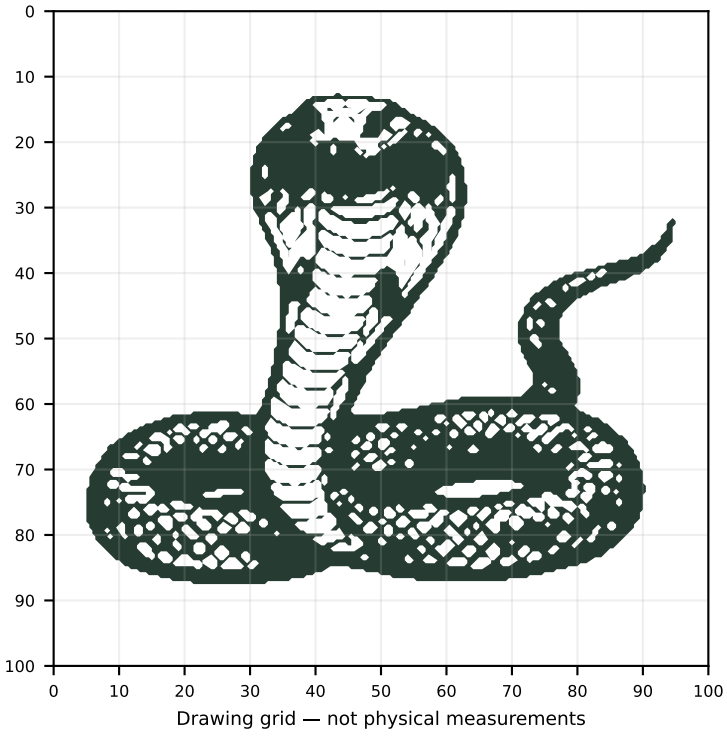

ANSWER: Example solution: preserve flared hood with visible eye markings, raised front body with banded ventral scales, coiled lower body with patterned dorsal scales and a tapering tail. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the flared hood as a rounded, symmetrical shape with the head at the top center.
2. Extend a raised, slightly curved neck downward from the hood, adding horizontal band lines for the ventral scales.
3. Draw the lower body as two overlapping coils beneath the neck, using a rounded loop shape.
4. Add a thin, curved tail extending up and to the right from the rear coil, then outline the scale pattern.

ANSWER / CASE 3

cobra: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

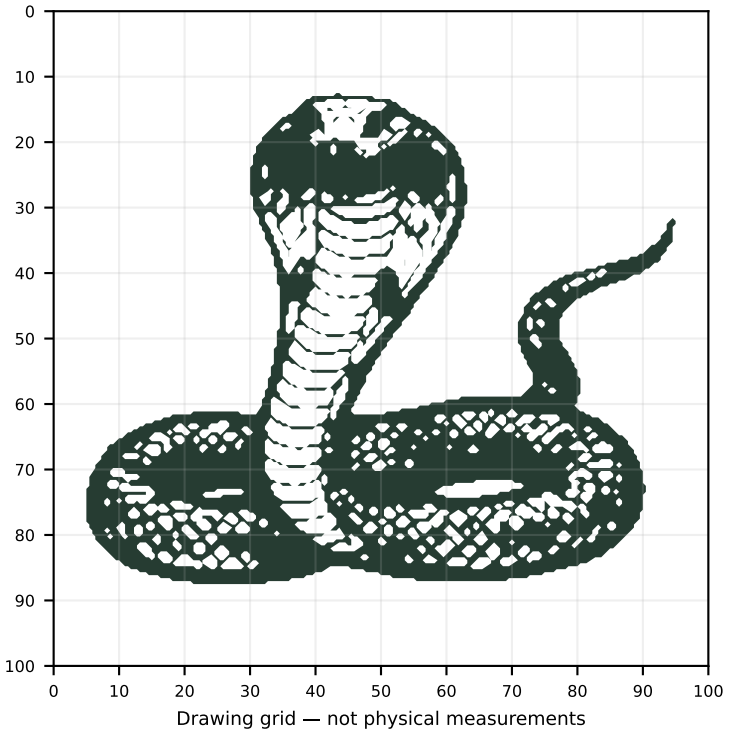

ANSWER: Example solution: preserve flared hood with visible eye markings, raised front body with banded ventral scales, coiled lower body with patterned dorsal scales and a tapering tail. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the flared hood as a rounded, symmetrical shape with the head at the top center.
2. Extend a raised, slightly curved neck downward from the hood, adding horizontal band lines for the ventral scales.
3. Draw the lower body as two overlapping coils beneath the neck, using a rounded loop shape.
4. Add a thin, curved tail extending up and to the right from the rear coil, then outline the scale pattern.

How to Draw Cobra — Free Practice Sheets

ANSWER / CASE 4

cobra: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve flared hood with visible eye markings, raised front body with banded ventral scales, coiled lower body with patterned dorsal scales and a tapering tail. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the flared hood as a rounded, symmetrical shape with the head at the top center.
2. Extend a raised, slightly curved neck downward from the hood, adding horizontal band lines for the ventral scales.
3. Draw the lower body as two overlapping coils beneath the neck, using a rounded loop shape.
4. Add a thin, curved tail extending up and to the right from the rear coil, then outline the scale pattern.
