How to Draw Jellyfish — Free Practice Sheets

ANSWER / CASE 1

jellyfish: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

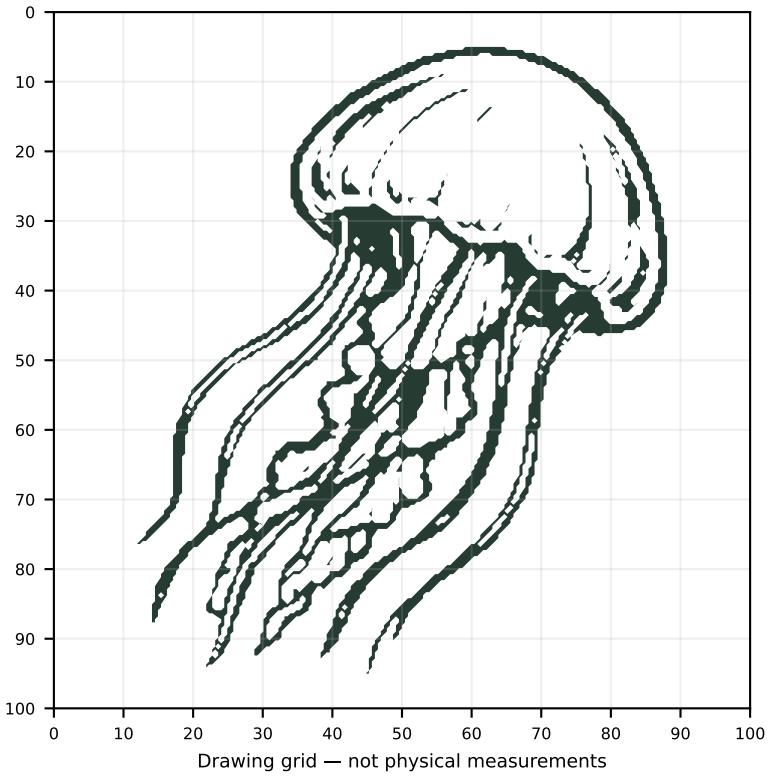

ANSWER: Example solution: preserve bell-shaped dome with radial surface lines, long trailing tentacles hanging from the bell margin, layered ruffled oral arms beneath the dome. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a rounded bell-shaped dome, slightly wider than tall, with a curved lower margin.
2. Add several curved radial lines inside the dome to suggest a translucent layered body.
3. From the underside of the bell, draw multiple long wavy tentacles trailing downward.
4. Add ruffled, folded oral-arm shapes between the tentacles, then outline the bell with a thicker contour.

How to Draw Jellyfish — Free Practice Sheets

ANSWER / CASE 2

jellyfish: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

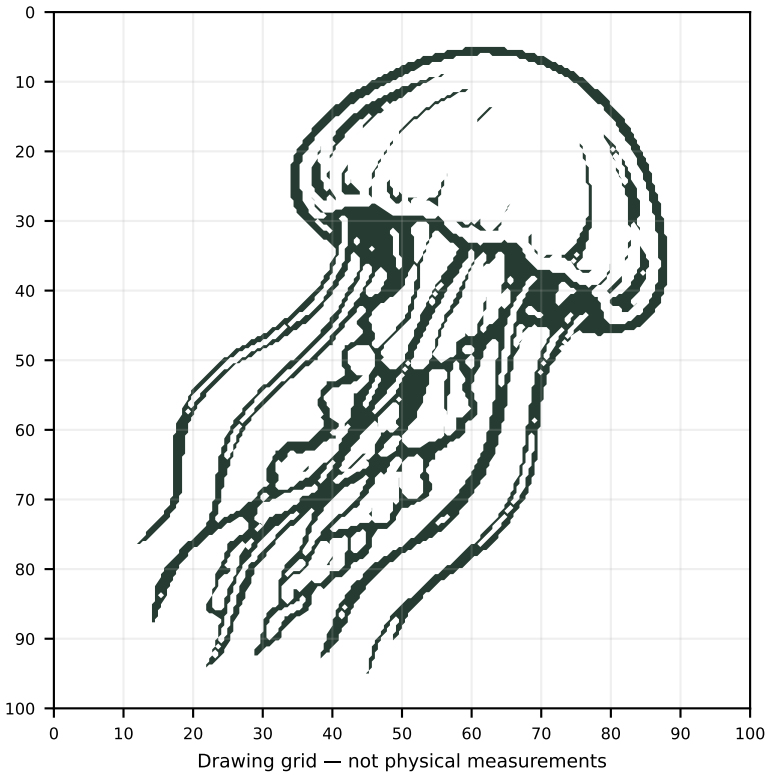

ANSWER: Example solution: preserve bell-shaped dome with radial surface lines, long trailing tentacles hanging from the bell margin, layered ruffled oral arms beneath the dome. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a rounded bell-shaped dome, slightly wider than tall, with a curved lower margin.
2. Add several curved radial lines inside the dome to suggest a translucent layered body.
3. From the underside of the bell, draw multiple long wavy tentacles trailing downward.
4. Add ruffled, folded oral-arm shapes between the tentacles, then outline the bell with a thicker contour.

How to Draw Jellyfish — Free Practice Sheets

ANSWER / CASE 3

jellyfish: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

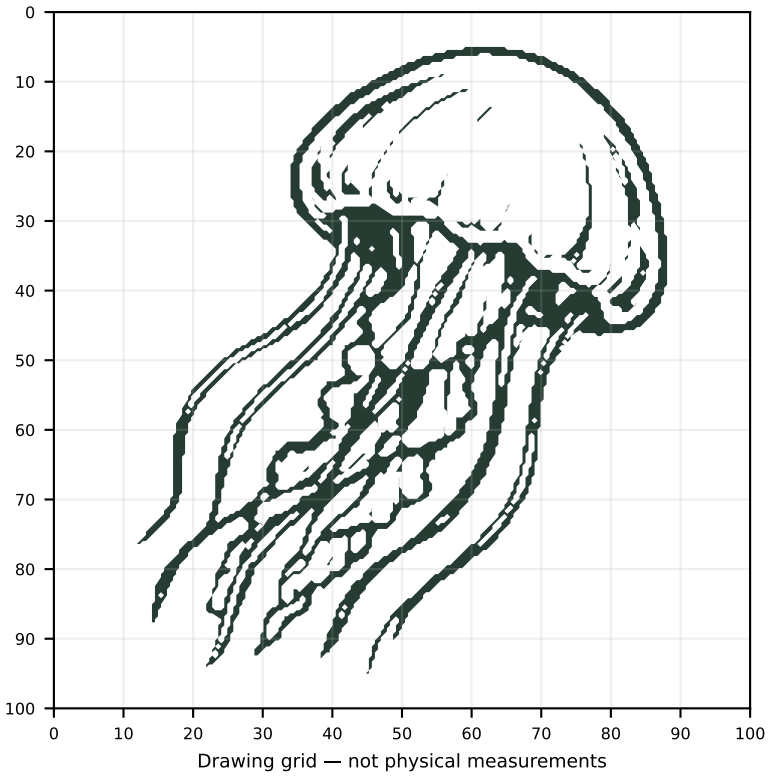

ANSWER: Example solution: preserve bell-shaped dome with radial surface lines, long trailing tentacles hanging from the bell margin, layered ruffled oral arms beneath the dome. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a rounded bell-shaped dome, slightly wider than tall, with a curved lower margin.
2. Add several curved radial lines inside the dome to suggest a translucent layered body.
3. From the underside of the bell, draw multiple long wavy tentacles trailing downward.
4. Add ruffled, folded oral-arm shapes between the tentacles, then outline the bell with a thicker contour.

How to Draw Jellyfish — Free Practice Sheets

ANSWER / CASE 4

jellyfish: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve bell-shaped dome with radial surface lines, long trailing tentacles hanging from the bell margin, layered ruffled oral arms beneath the dome. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a rounded bell-shaped dome, slightly wider than tall, with a curved lower margin.
2. Add several curved radial lines inside the dome to suggest a translucent layered body.
3. From the underside of the bell, draw multiple long wavy tentacles trailing downward.
4. Add ruffled, folded oral-arm shapes between the tentacles, then outline the bell with a thicker contour.
