How to Draw Jellyfish — Free Practice Sheets

REFERENCE / CASE 1

jellyfish: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

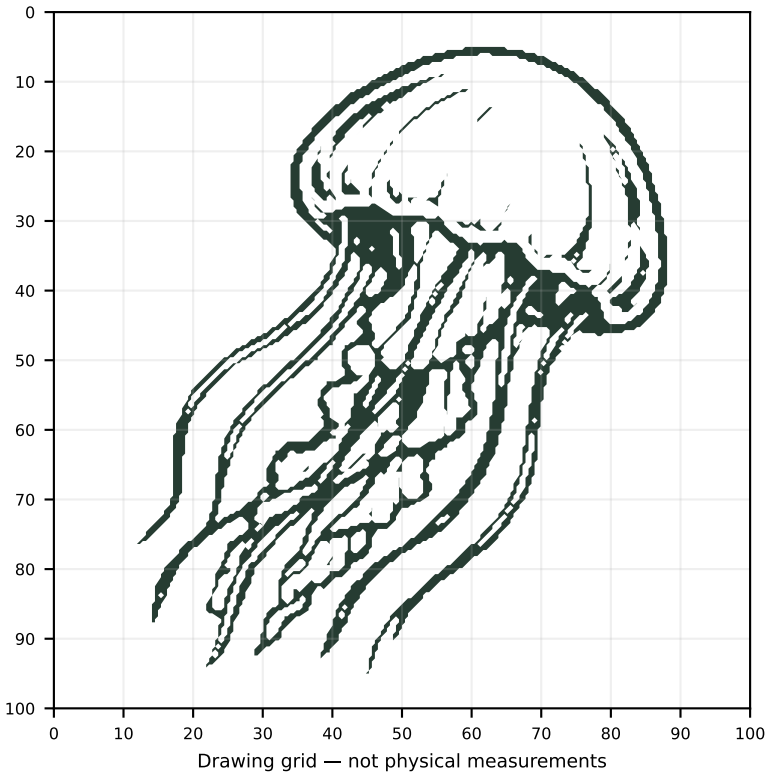

METHOD: Draw a rounded bell-shaped dome, slightly wider than tall, with a curved lower margin. Add several curved radial lines inside the dome to suggest a translucent layered body. From the underside of the bell, draw multiple long wavy tentacles trailing downward. Add ruffled, folded oral-arm shapes between the tentacles, then outline the bell with a thicker contour.
