How to Draw Alligator Gar — Free Practice Sheets

ANSWER / CASE 1

alligator gar: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

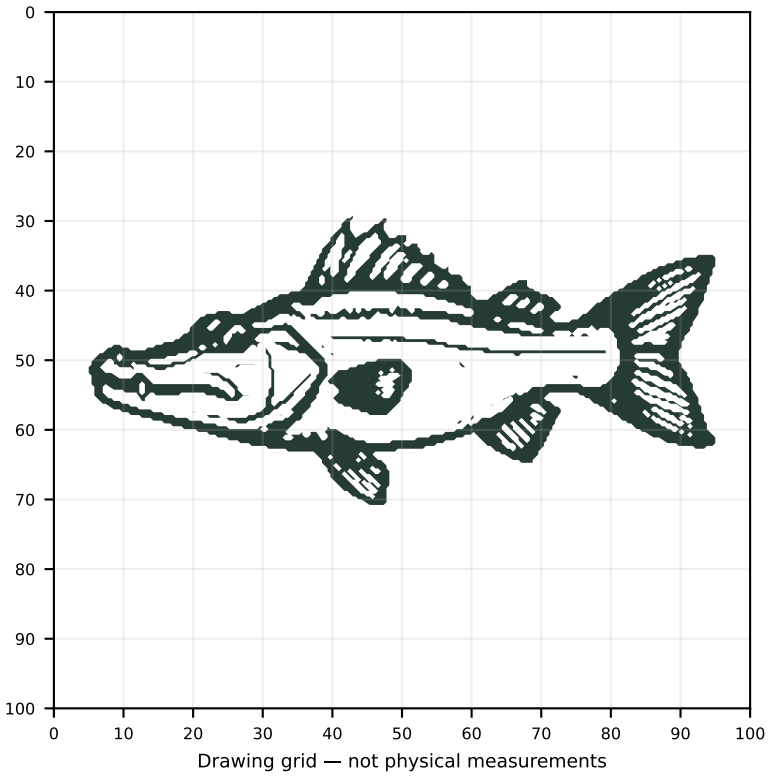

ANSWER: Example solution: preserve long toothy snout, elongated torpedo body, spotted fins. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the long, narrow snout with an open mouth and visible teeth at the left.
2. Extend a streamlined, torpedo-shaped body from the head to the tail.
3. Add the dorsal, pectoral, pelvic, anal, and caudal fins with ray lines and spot markings.
4. Outline the eye and lateral line details along the body.

ANSWER / CASE 2

alligator gar: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

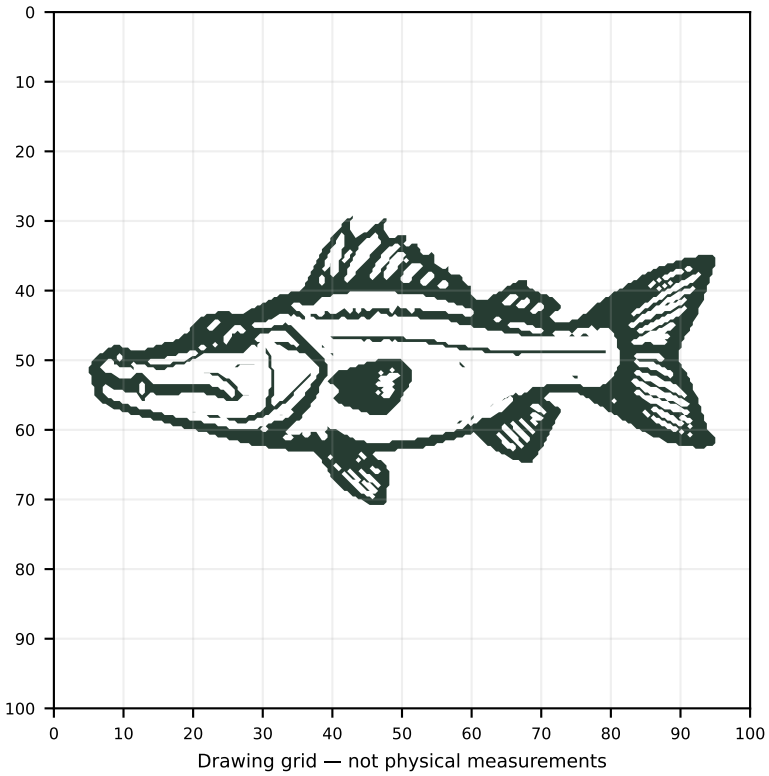

ANSWER: Example solution: preserve long toothy snout, elongated torpedo body, spotted fins. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the long, narrow snout with an open mouth and visible teeth at the left.
2. Extend a streamlined, torpedo-shaped body from the head to the tail.
3. Add the dorsal, pectoral, pelvic, anal, and caudal fins with ray lines and spot markings.
4. Outline the eye and lateral line details along the body.

How to Draw Alligator Gar — Free Practice Sheets

ANSWER / CASE 3

alligator gar: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

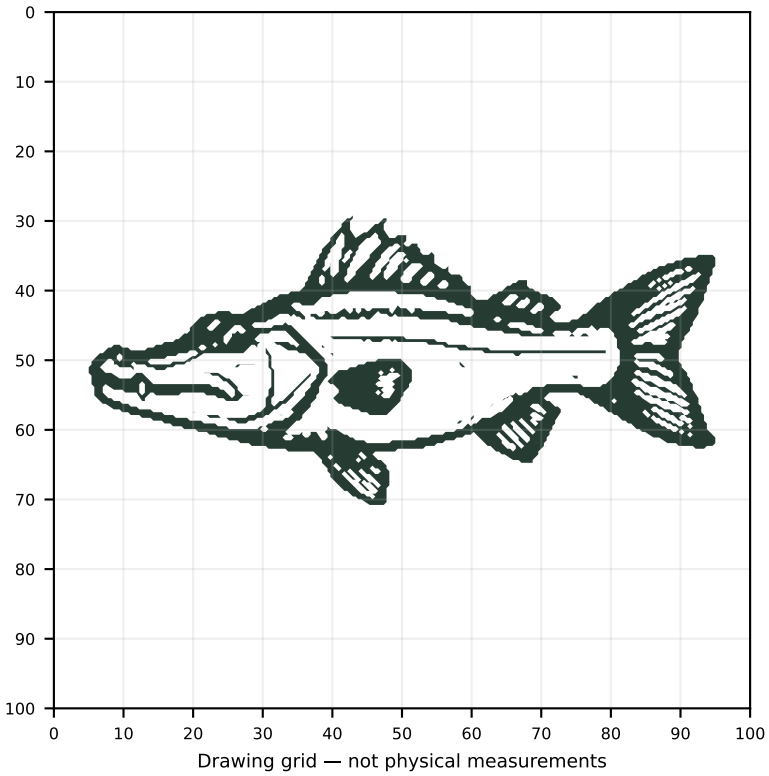

ANSWER: Example solution: preserve long toothy snout, elongated torpedo body, spotted fins. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the long, narrow snout with an open mouth and visible teeth at the left.
2. Extend a streamlined, torpedo-shaped body from the head to the tail.
3. Add the dorsal, pectoral, pelvic, anal, and caudal fins with ray lines and spot markings.
4. Outline the eye and lateral line details along the body.

How to Draw Alligator Gar — Free Practice Sheets

ANSWER / CASE 4

alligator gar: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve long toothy snout, elongated torpedo body, spotted fins. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the long, narrow snout with an open mouth and visible teeth at the left.
2. Extend a streamlined, torpedo-shaped body from the head to the tail.
3. Add the dorsal, pectoral, pelvic, anal, and caudal fins with ray lines and spot markings.
4. Outline the eye and lateral line details along the body.
