How to Draw Eel — Free Practice Sheets

ANSWER / CASE 1

eel: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

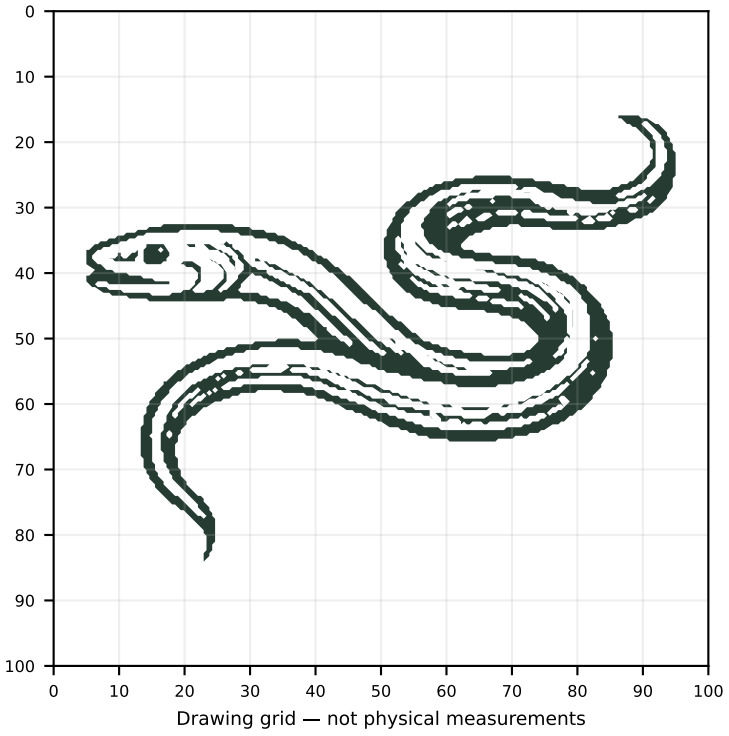

ANSWER: Example solution: preserve long snake-like body with sinuous S-curve, continuous dorsal fin running along the back, small pointed head with eye and mouth line. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a long S-shaped centerline for the body, tapering toward the tail.
2. Sketch a small pointed head at the left end with an eye and mouth line.
3. Add a continuous dorsal fin ridge along the top edge of the body.
4. Outline the body thickness and tail tip, then refine the fin and head details.

How to Draw Eel — Free Practice Sheets

ANSWER / CASE 2

eel: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

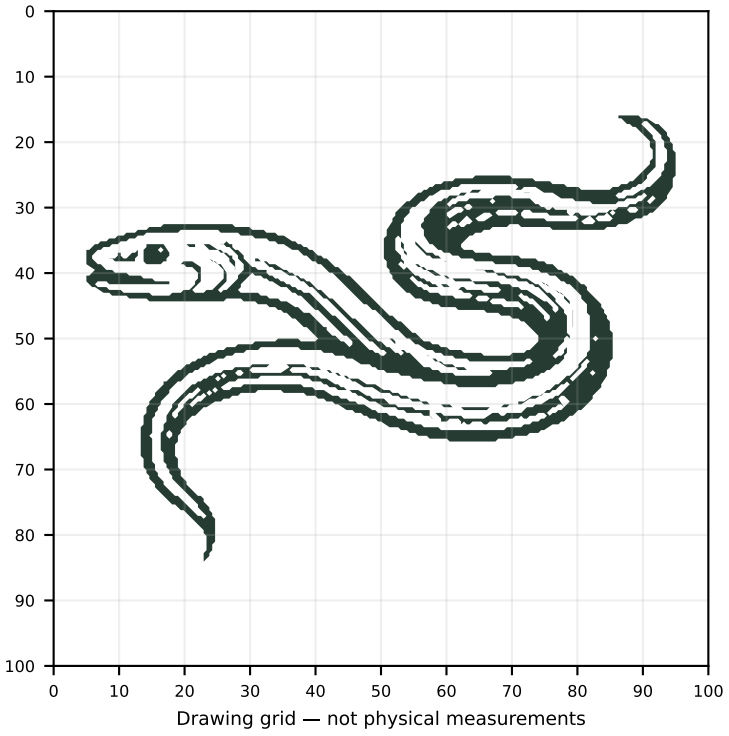

ANSWER: Example solution: preserve long snake-like body with sinuous S-curve, continuous dorsal fin running along the back, small pointed head with eye and mouth line. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a long S-shaped centerline for the body, tapering toward the tail.
2. Sketch a small pointed head at the left end with an eye and mouth line.
3. Add a continuous dorsal fin ridge along the top edge of the body.
4. Outline the body thickness and tail tip, then refine the fin and head details.

How to Draw Eel — Free Practice Sheets

ANSWER / CASE 3

eel: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

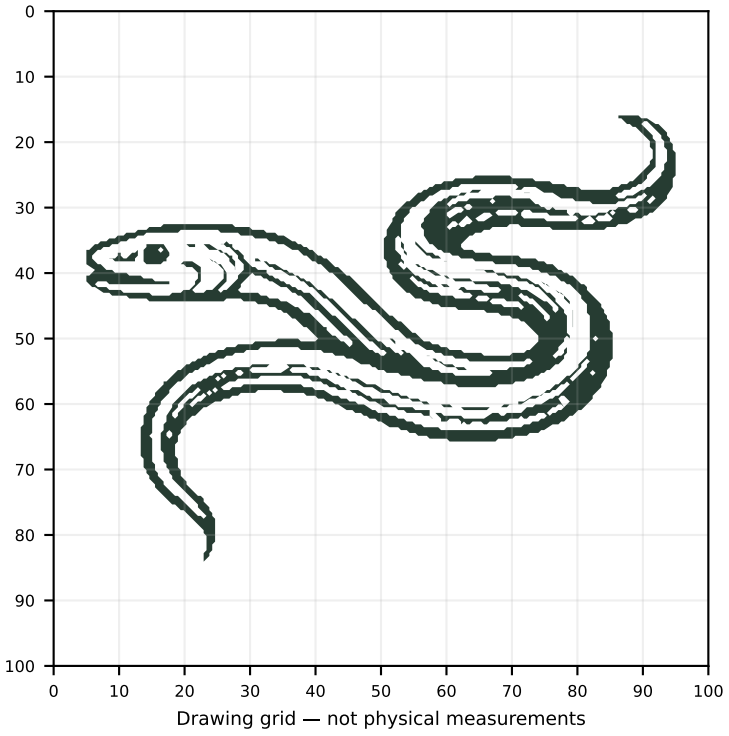

ANSWER: Example solution: preserve long snake-like body with sinuous S-curve, continuous dorsal fin running along the back, small pointed head with eye and mouth line. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a long S-shaped centerline for the body, tapering toward the tail.
2. Sketch a small pointed head at the left end with an eye and mouth line.
3. Add a continuous dorsal fin ridge along the top edge of the body.
4. Outline the body thickness and tail tip, then refine the fin and head details.

How to Draw Eel — Free Practice Sheets

ANSWER / CASE 4

eel: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve long snake-like body with sinuous S-curve, continuous dorsal fin running along the back, small pointed head with eye and mouth line. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a long S-shaped centerline for the body, tapering toward the tail.
2. Sketch a small pointed head at the left end with an eye and mouth line.
3. Add a continuous dorsal fin ridge along the top edge of the body.
4. Outline the body thickness and tail tip, then refine the fin and head details.
