How to Draw Dragonfly — Free Practice Sheets

REFERENCE / CASE 1

dragonfly: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

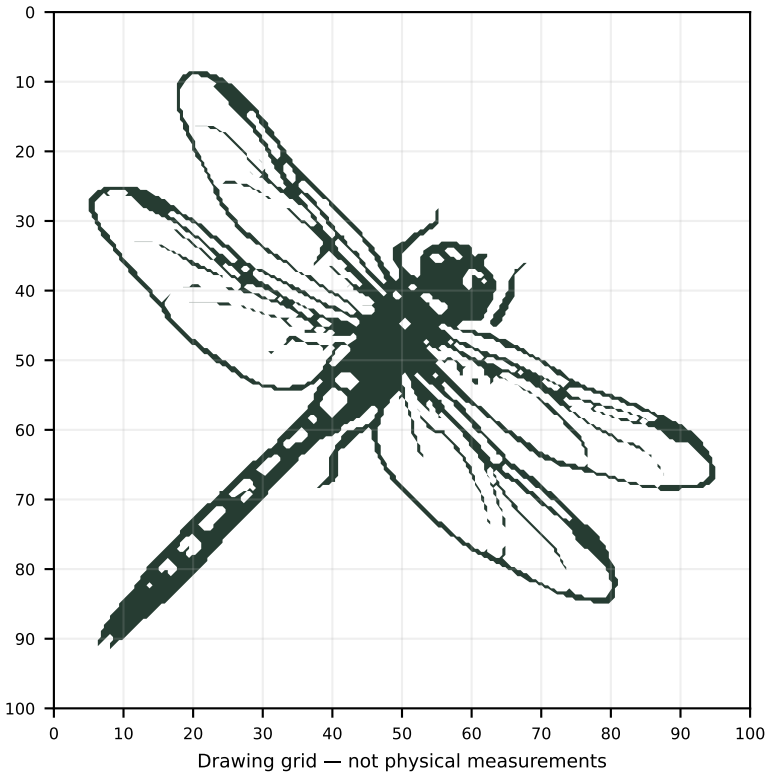

METHOD: Draw the central axis: a small rounded head, a thicker thorax, and a long segmented abdomen tapering to a point. Attach four elongated wings to the thorax, two on each side, with rounded tips and dark end spots. Add the large compound eyes on the head and the thin legs extending from the thorax. Outline the wing veins and segment markings on the abdomen to complete the line drawing.
Use the separate practice sheet before checking the answer.
