How to Draw Bat — Free Practice Sheets

ANSWER / CASE 1

bat: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

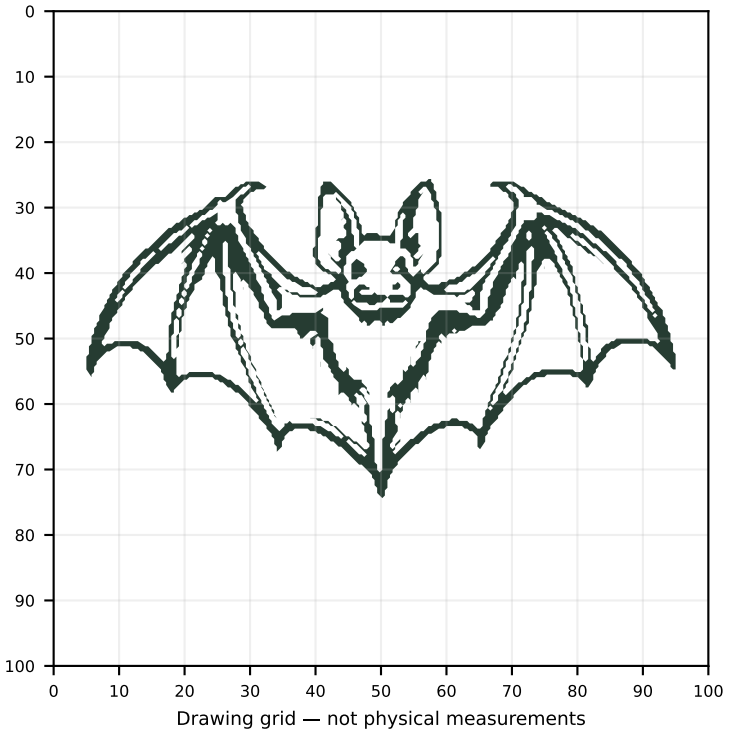

ANSWER: Example solution: preserve membrane wings with scalloped trailing edges and radiating finger lines, large pointed ears on a small furry head, small furry body with visible facial features and two feet at the bottom. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the central body as a small vertical oval with a rounded head and two large pointed ears.
2. Add the face details: two small eyes, a simple nose, and a slightly open mouth.
3. Extend symmetrical membrane wings from the sides of the body, using curved outer edges and internal lines to suggest wing fingers.
4. Draw two small feet at the bottom of the body and add light fur texture lines on the chest and wings.

ANSWER / CASE 3

bat: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

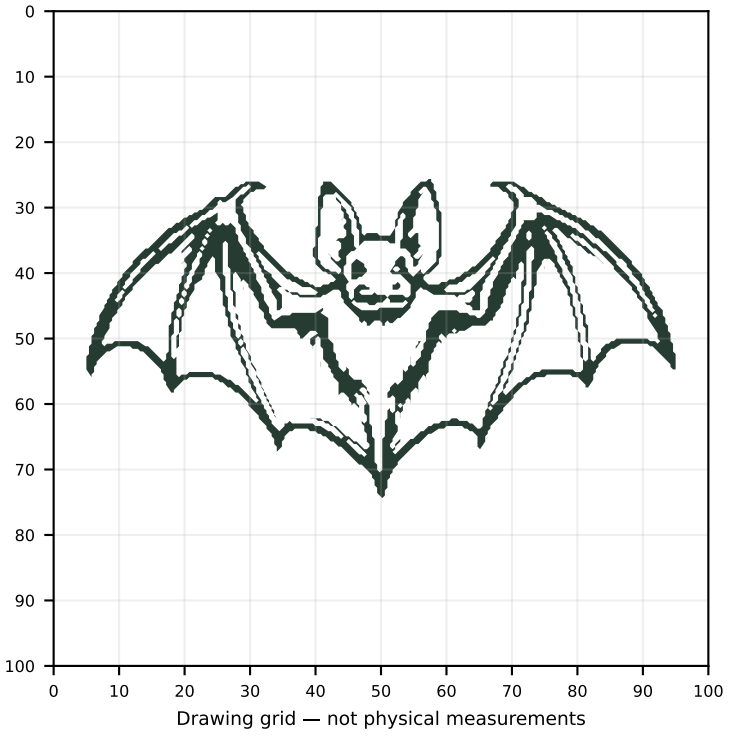

ANSWER: Example solution: preserve membrane wings with scalloped trailing edges and radiating finger lines, large pointed ears on a small furry head, small furry body with visible facial features and two feet at the bottom. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the central body as a small vertical oval with a rounded head and two large pointed ears.
2. Add the face details: two small eyes, a simple nose, and a slightly open mouth.
3. Extend symmetrical membrane wings from the sides of the body, using curved outer edges and internal lines to suggest wing fingers.
4. Draw two small feet at the bottom of the body and add light fur texture lines on the chest and wings.

How to Draw Bat — Free Practice Sheets

ANSWER / CASE 4

bat: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve membrane wings with scalloped trailing edges and radiating finger lines, large pointed ears on a small furry head, small furry body with visible facial features and two feet at the bottom. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the central body as a small vertical oval with a rounded head and two large pointed ears.
2. Add the face details: two small eyes, a simple nose, and a slightly open mouth.
3. Extend symmetrical membrane wings from the sides of the body, using curved outer edges and internal lines to suggest wing fingers.
4. Draw two small feet at the bottom of the body and add light fur texture lines on the chest and wings.
