How to Draw Toad — Free Practice Sheets

REFERENCE / CASE 1

toad: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

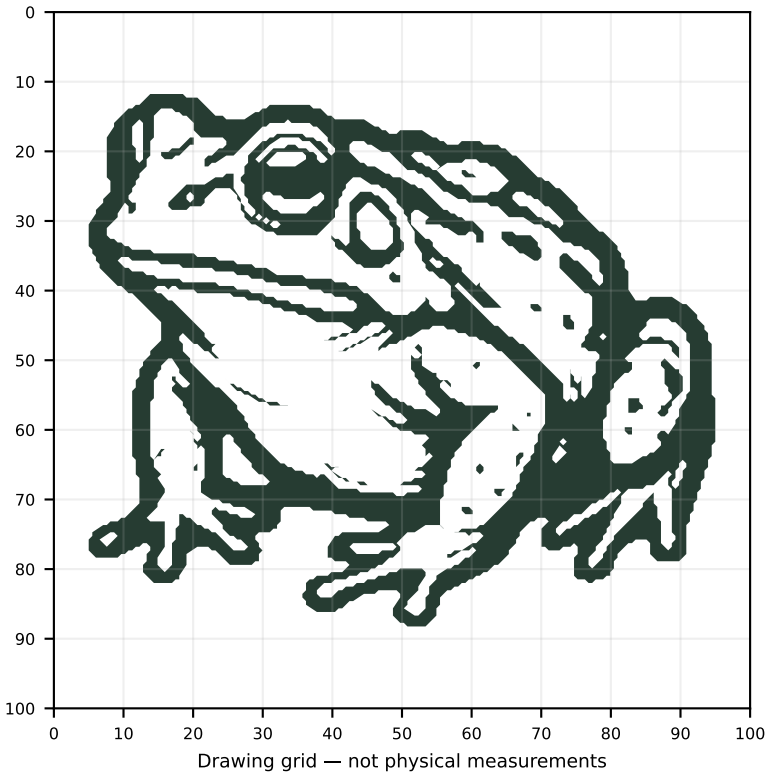

METHOD: Draw the main body outline as a broad, low oval with a slight hump at the back. Add the head shape with a wide mouth line and place the large circular eye and smaller tympanum circle. Sketch the front and hind legs as short, thick limbs with simple toe shapes, keeping the hind leg folded close to the body. Add small dark spots and short line marks across the back and legs to suggest warty skin, then outline the belly with a curved line. Use the separate practice sheet before checking the answer.
