How to Draw Capybara — Free Practice Sheets

ANSWER / CASE 1

capybara: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

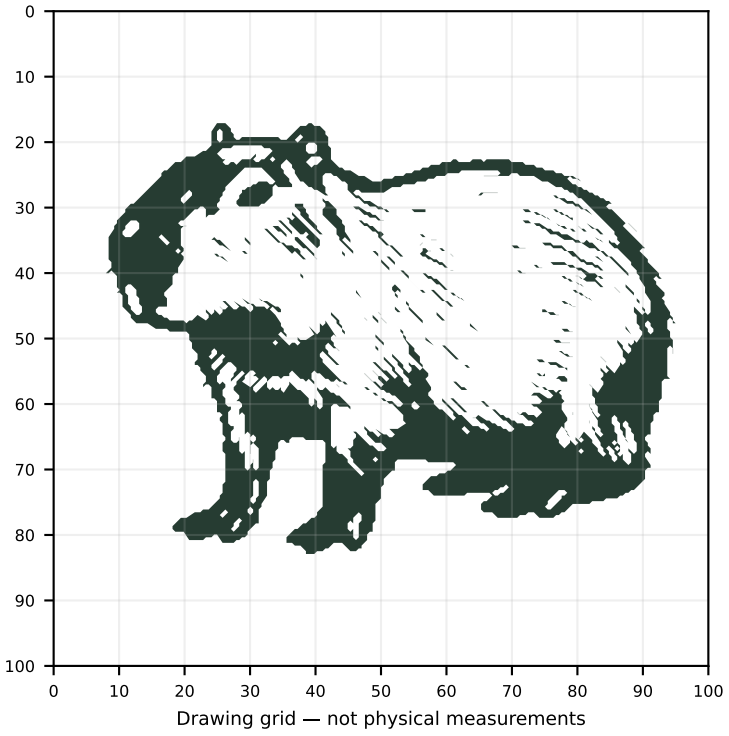

ANSWER: Example solution: preserve blocky rectangular head with blunt, squared muzzle, small rounded ears set high on the head, barrel-shaped body with short, sturdy legs. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large horizontal oval for the barrel body and a smaller blocky rectangle/oval for the head, overlapping at the neck.
2. Add the blunt snout as a squared extension at the front of the head, then place a small rounded ear on top.
3. Sketch four short, thick legs descending from the body, with the front pair slightly forward and the back pair tucked under the rear.
4. Outline the body with fur-direction strokes and add facial details: eye, nose, and whiskers.

ANSWER / CASE 2

capybara: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

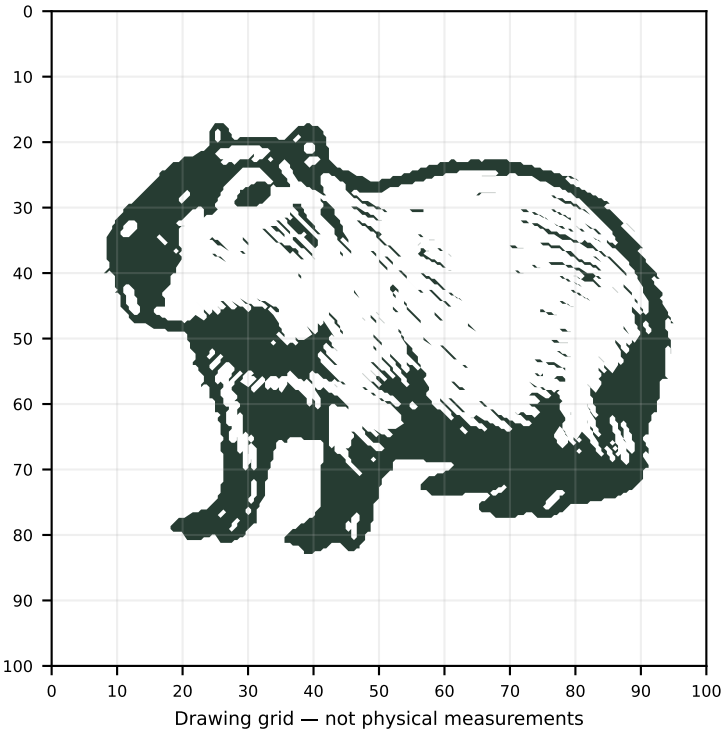

ANSWER: Example solution: preserve blocky rectangular head with blunt, squared muzzle, small rounded ears set high on the head, barrel-shaped body with short, sturdy legs. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large horizontal oval for the barrel body and a smaller blocky rectangle/oval for the head, overlapping at the neck.
2. Add the blunt snout as a squared extension at the front of the head, then place a small rounded ear on top.
3. Sketch four short, thick legs descending from the body, with the front pair slightly forward and the back pair tucked under the rear.
4. Outline the body with fur-direction strokes and add facial details: eye, nose, and whiskers.

ANSWER / CASE 3

capybara: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

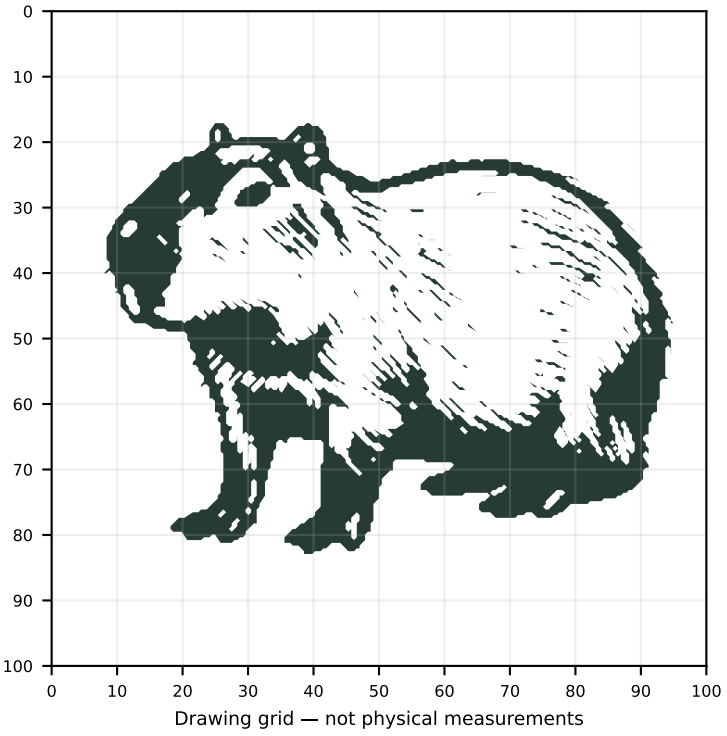

ANSWER: Example solution: preserve blocky rectangular head with blunt, squared muzzle, small rounded ears set high on the head, barrel-shaped body with short, sturdy legs. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large horizontal oval for the barrel body and a smaller blocky rectangle/oval for the head, overlapping at the neck.
2. Add the blunt snout as a squared extension at the front of the head, then place a small rounded ear on top.
3. Sketch four short, thick legs descending from the body, with the front pair slightly forward and the back pair tucked under the rear.
4. Outline the body with fur-direction strokes and add facial details: eye, nose, and whiskers.
