How to Draw Triceratops — Free Practice Sheets

ANSWER / CASE 1

triceratops: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

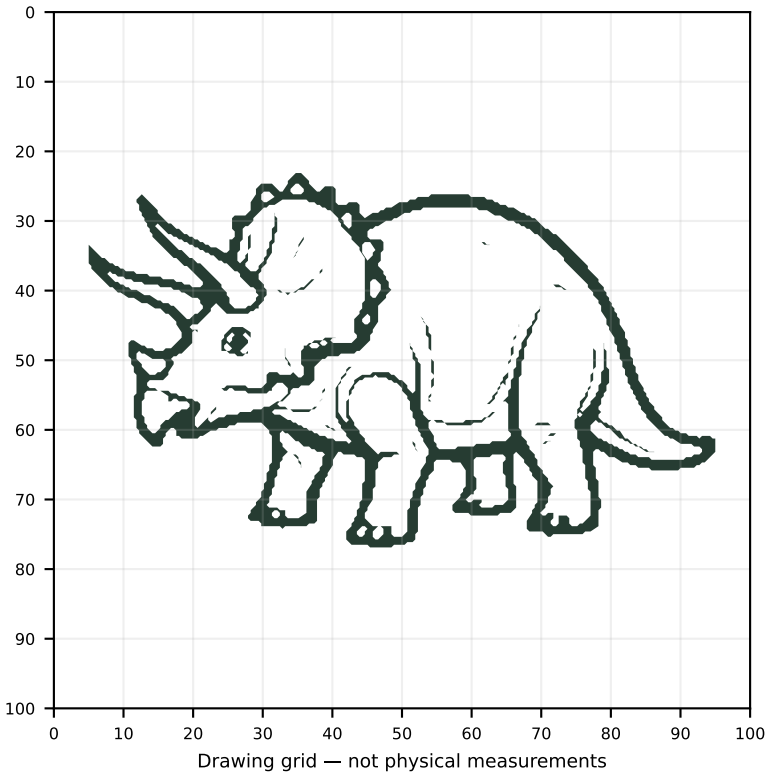

ANSWER: Example solution: preserve three horns (two long brow horns and one shorter nose horn), large neck frill with scalloped edge, stocky four-legged body with a short tail. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the large rounded neck frill as a semicircular shape with a scalloped outer edge.
2. Add the head in front of the frill, placing two long horns above the eye and a shorter horn on the snout.
3. Sketch the stocky body as a broad oval behind the frill, then attach four legs with rounded feet.
4. Add the short tapering tail at the rear and outline the facial features and body contours.
