How to Draw Gecko — Free Practice Sheets

ANSWER / CASE 1

gecko: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

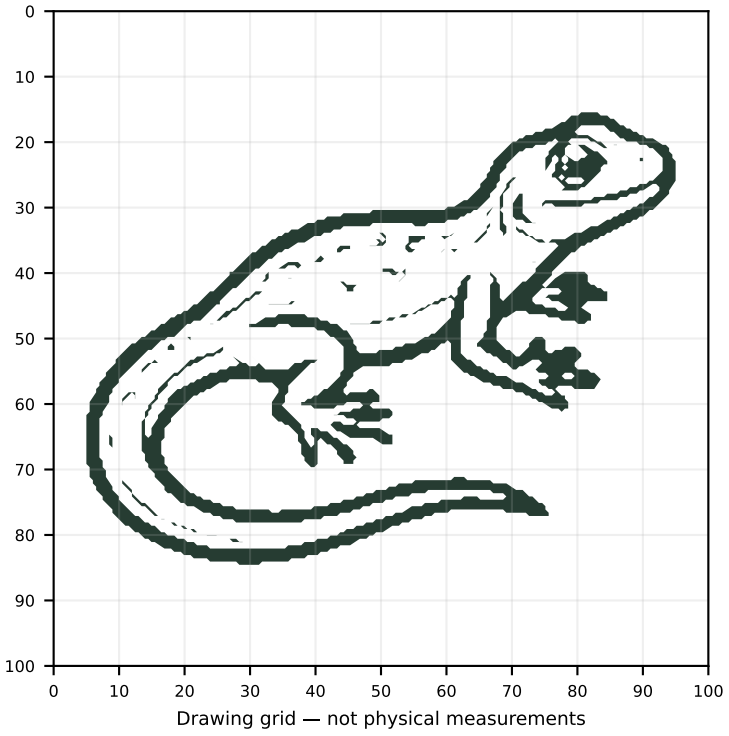

ANSWER: Example solution: preserve wide splayed toe pads on the feet, large protruding eye with defined pupil, tapered tail that curls back toward the body. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the head as a rounded wedge with a large protruding eye and a curved mouth line.
2. Extend a smooth arched back line from the head to the tail base, adding small spot markings along the dorsal surface.
3. Draw the tapered tail curving downward and then sweeping back toward the body in a loose C-shape.
4. Add four legs with splayed toe pads: two forelimbs near the shoulder and two hindlimbs near the hip, keeping the feet spread outward.

How to Draw Gecko — Free Practice Sheets

ANSWER / CASE 2

gecko: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

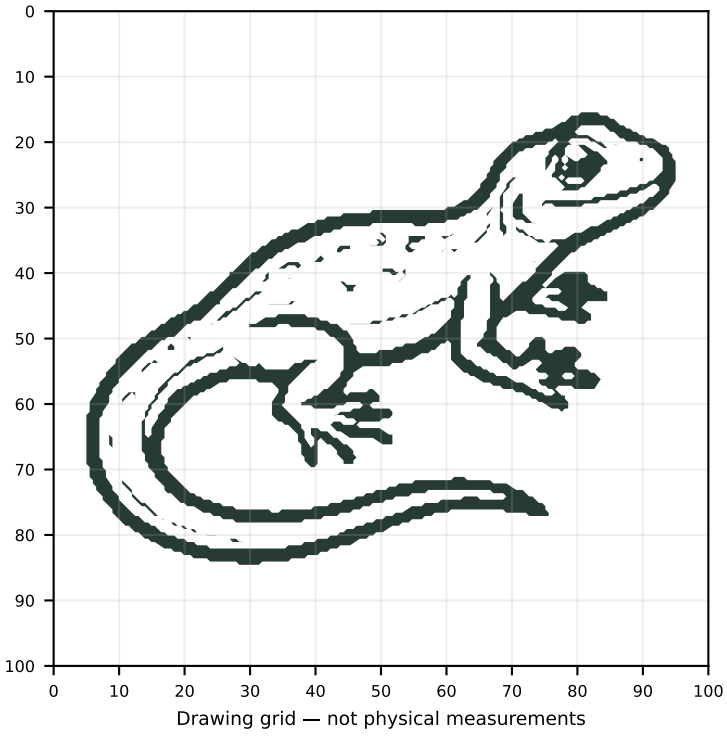

ANSWER: Example solution: preserve wide splayed toe pads on the feet, large protruding eye with defined pupil, tapered tail that curls back toward the body. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the head as a rounded wedge with a large protruding eye and a curved mouth line.
2. Extend a smooth arched back line from the head to the tail base, adding small spot markings along the dorsal surface.
3. Draw the tapered tail curving downward and then sweeping back toward the body in a loose C-shape.
4. Add four legs with splayed toe pads: two forelimbs near the shoulder and two hindlimbs near the hip, keeping the feet spread outward.

ANSWER / CASE 3

gecko: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

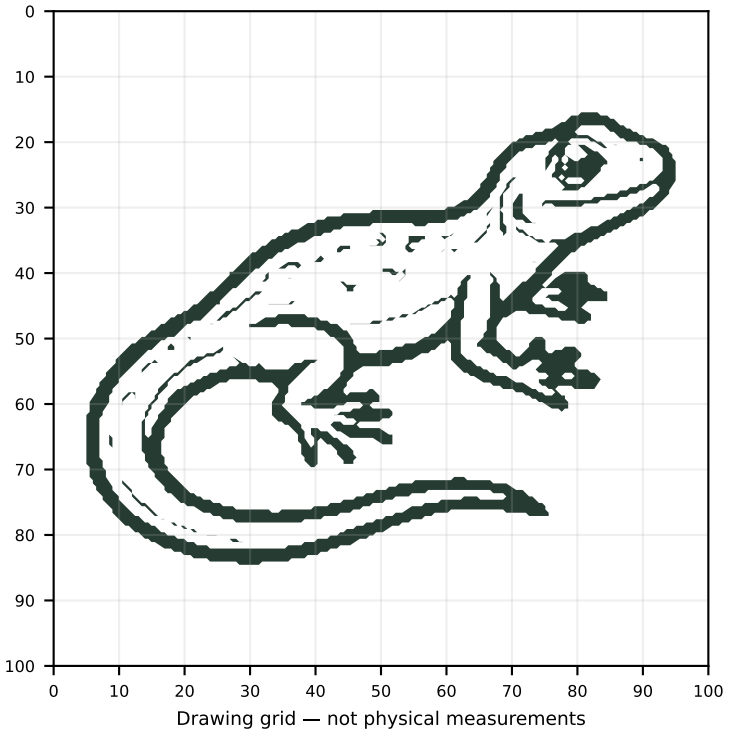

ANSWER: Example solution: preserve wide splayed toe pads on the feet, large protruding eye with defined pupil, tapered tail that curls back toward the body. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the head as a rounded wedge with a large protruding eye and a curved mouth line.
2. Extend a smooth arched back line from the head to the tail base, adding small spot markings along the dorsal surface.
3. Draw the tapered tail curving downward and then sweeping back toward the body in a loose C-shape.
4. Add four legs with splayed toe pads: two forelimbs near the shoulder and two hindlimbs near the hip, keeping the feet spread outward.

How to Draw Gecko — Free Practice Sheets

ANSWER / CASE 4

gecko: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve wide splayed toe pads on the feet, large protruding eye with defined pupil, tapered tail that curls back toward the body. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the head as a rounded wedge with a large protruding eye and a curved mouth line.
2. Extend a smooth arched back line from the head to the tail base, adding small spot markings along the dorsal surface.
3. Draw the tapered tail curving downward and then sweeping back toward the body in a loose C-shape.
4. Add four legs with splayed toe pads: two forelimbs near the shoulder and two hindlimbs near the hip, keeping the feet spread outward.
