How to Draw Gecko — Free Practice Sheets

REFERENCE / CASE 1

gecko: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

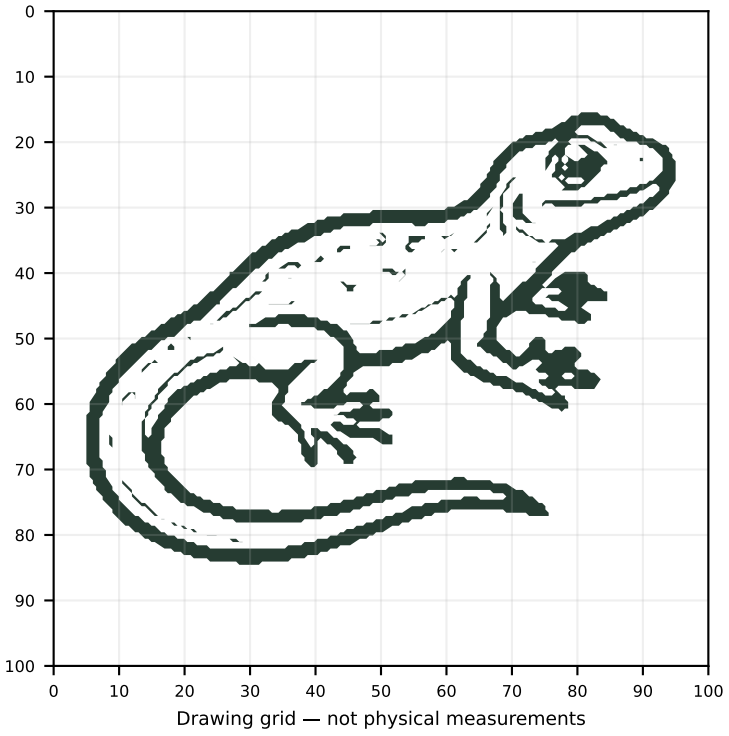

METHOD: Draw the head as a rounded wedge with a large protruding eye and a curved mouth line. Extend a smooth arched back line from the head to the tail base, adding small spot markings along the dorsal surface. Draw the tapered tail curving downward and then sweeping back toward the body in a loose C-shape. Add four legs with splayed toe pads: two forelimbs near the shoulder and two hindlimbs near the hip, keeping the feet spread outward.
Use the separate practice sheet before checking the answer.
