How to Draw Tuna — Free Practice Sheets

ANSWER / CASE 1

tuna: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

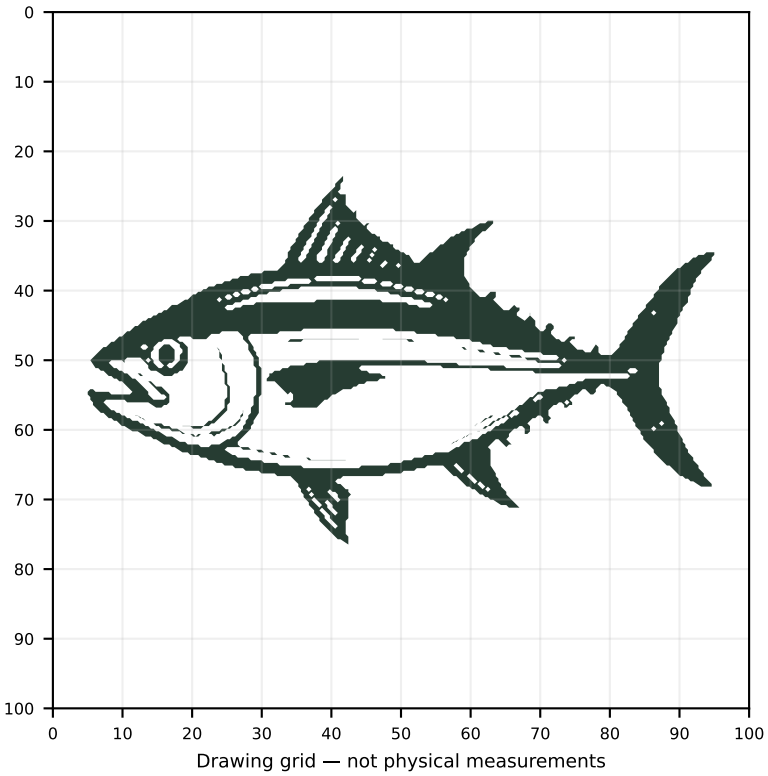

ANSWER: Example solution: preserve torpedo-shaped body with pointed snout, crescent-shaped tail fin, small finlets along the upper and lower rear body near the tail. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw an elongated torpedo-shaped body outline tapering to a pointed snout at the left and a narrow caudal peduncle at the right.
2. Add the crescent tail fin at the rear and the two dorsal fins along the top of the body.
3. Place the pectoral fin on the side behind the head and the pelvic/anal fins on the lower body.
4. Draw the eye and mouth at the front, then add small finlets in rows along the upper and lower rear body before the tail.

How to Draw Tuna — Free Practice Sheets

ANSWER / CASE 2

tuna: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

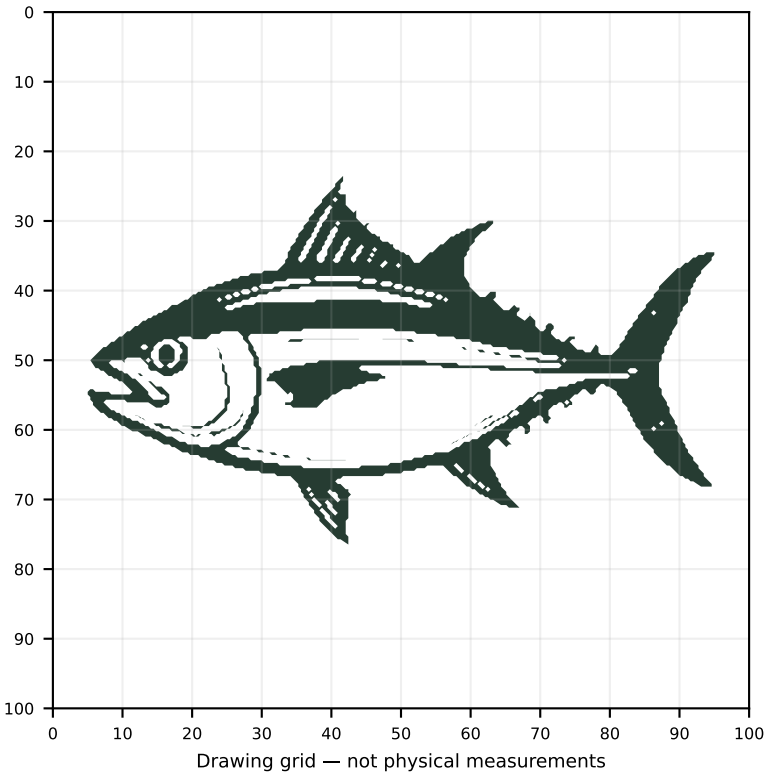

ANSWER: Example solution: preserve torpedo-shaped body with pointed snout, crescent-shaped tail fin, small finlets along the upper and lower rear body near the tail. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.

1. Draw an elongated torpedo-shaped body outline tapering to a pointed snout at the left and a narrow caudal peduncle at the right.
2. Add the crescent tail fin at the rear and the two dorsal fins along the top of the body.
3. Place the pectoral fin on the side behind the head and the pelvic/anal fins on the lower body.
4. Draw the eye and mouth at the front, then add small finlets in rows along the upper and lower rear body before the tail.

ANSWER / CASE 3

tuna: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

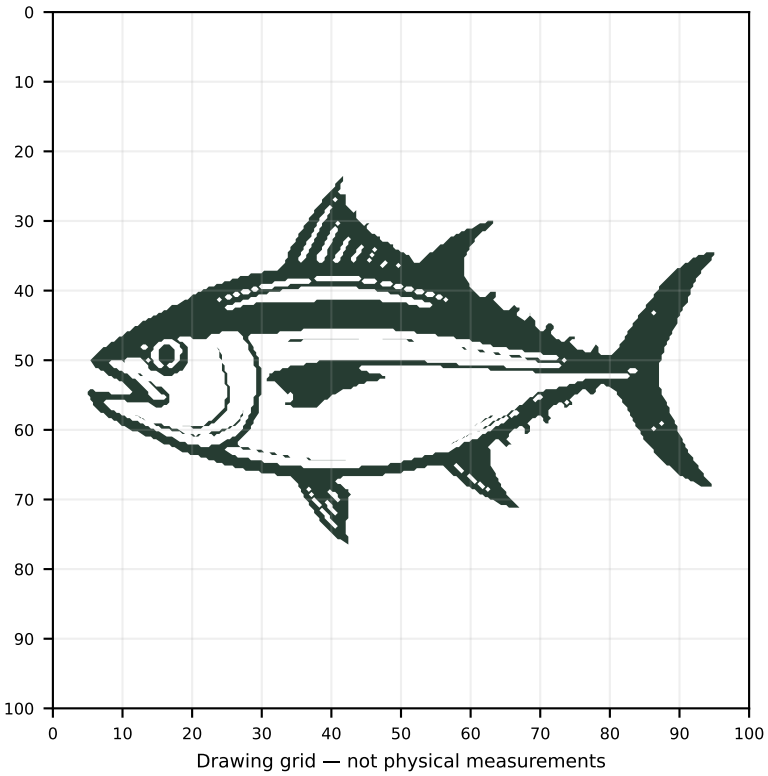

ANSWER: Example solution: preserve torpedo-shaped body with pointed snout, crescent-shaped tail fin, small finlets along the upper and lower rear body near the tail. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw an elongated torpedo-shaped body outline tapering to a pointed snout at the left and a narrow caudal peduncle at the right.
2. Add the crescent tail fin at the rear and the two dorsal fins along the top of the body.
3. Place the pectoral fin on the side behind the head and the pelvic/anal fins on the lower body.
4. Draw the eye and mouth at the front, then add small finlets in rows along the upper and lower rear body before the tail.

How to Draw Tuna — Free Practice Sheets

ANSWER / CASE 4

tuna: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve torpedo-shaped body with pointed snout, crescent-shaped tail fin, small finlets along the upper and lower rear body near the tail. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw an elongated torpedo-shaped body outline tapering to a pointed snout at the left and a narrow caudal peduncle at the right.
2. Add the crescent tail fin at the rear and the two dorsal fins along the top of the body.
3. Place the pectoral fin on the side behind the head and the pelvic/anal fins on the lower body.
4. Draw the eye and mouth at the front, then add small finlets in rows along the upper and lower rear body before the tail.
