How to Draw Weevil — Free Practice Sheets

REFERENCE / CASE 1

weevil: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

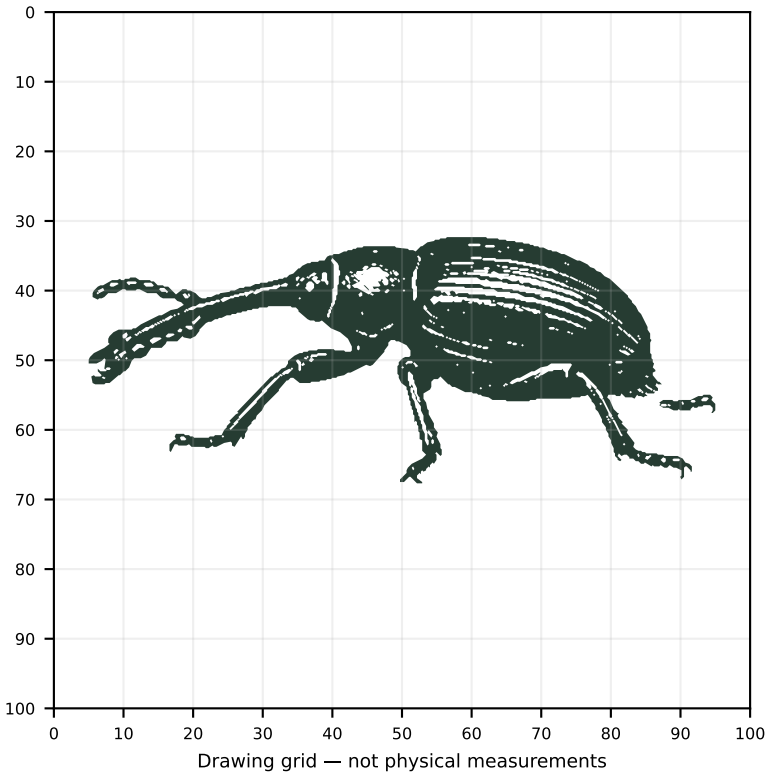

METHOD: Draw the elongated, downward-curving snout as the leftmost feature. Attach the oval, ridged body behind the head, with the pronotum separated from the abdomen. Add the elbowed antennae extending from the snout, showing the bend. Draw the legs attached to the underside of the body, keeping the visible count consistent.
Use the separate practice sheet before checking the answer.

REFERENCE / CASE 2

weevil: Copy the reference onto the blank grid, using matching grid intersections.
Compare with the separate full reference sheet.

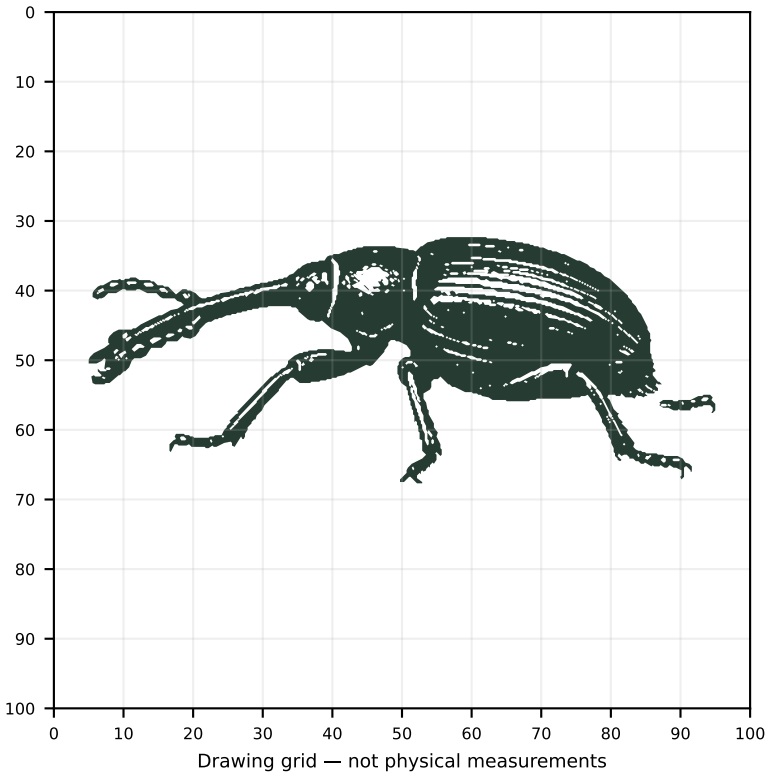

METHOD: Draw the elongated, downward-curving snout as the leftmost feature. Attach the oval, ridged body behind the head, with the pronotum separated from the abdomen. Add the elbowed antennae extending from the snout, showing the bend. Draw the legs attached to the underside of the body, keeping the visible count consistent.
Use the separate practice sheet before checking the answer.

How to Draw Weevil — Free Practice Sheets

REFERENCE / CASE 3

weevil: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

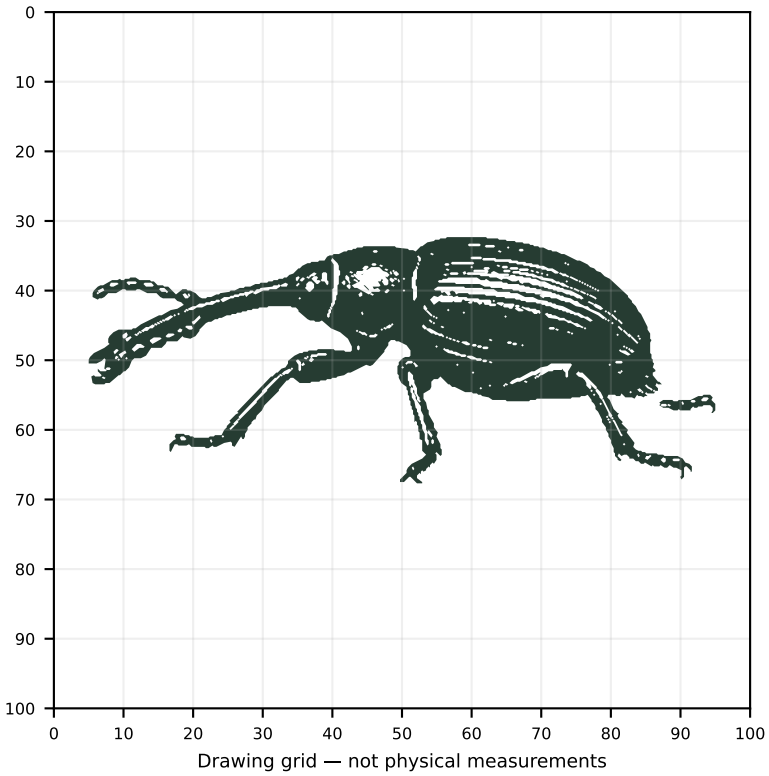

METHOD: Draw the elongated, downward-curving snout as the leftmost feature. Attach the oval, ridged body behind the head, with the pronotum separated from the abdomen. Add the elbowed antennae extending from the snout, showing the bend. Draw the legs attached to the underside of the body, keeping the visible count consistent.
Use the separate practice sheet before checking the answer.

How to Draw Weevil — Free Practice Sheets

REFERENCE / CASE 4

weevil: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw the elongated, downward-curving snout as the leftmost feature. Attach the oval, ridged body behind the head, with the pronotum separated from the abdomen. Add the elbowed antennae extending from the snout, showing the bend. Draw the legs attached to the underside of the body, keeping the visible count consistent.
Use the separate practice sheet before checking the answer.
