How to Draw Moth — Free Practice Sheets

ANSWER / CASE 1

moth: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

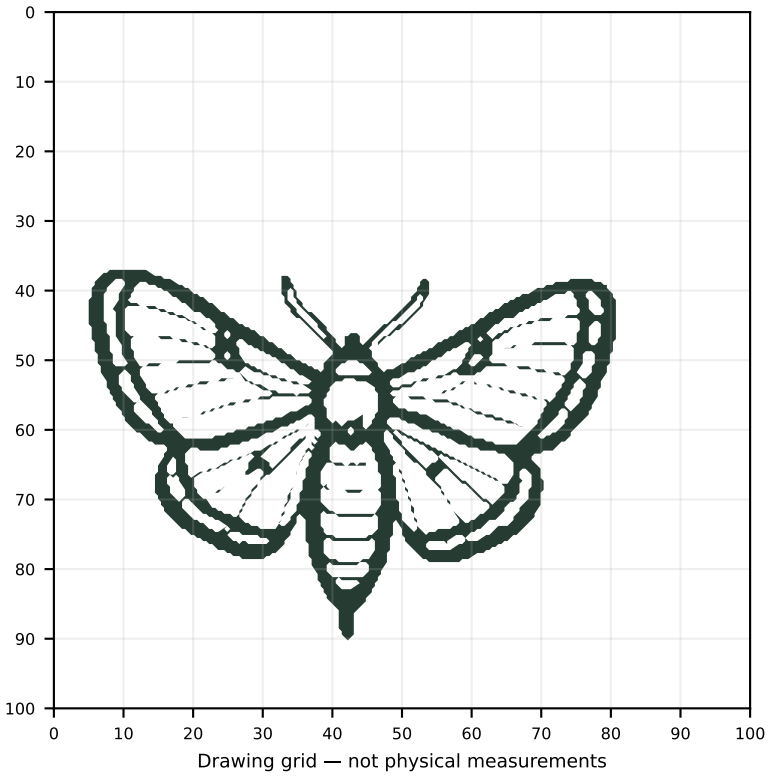

ANSWER: Example solution: preserve wide patterned wings with bold outline and interior vein lines, two thin curved antennae extending upward from the head, stout segmented body with a rounded head and tapered abdomen. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a vertical oval for the head and a segmented tapered oval for the abdomen to form the stout body.
2. Add two thin curved antennae from the top of the head, angling outward.
3. Draw four wide wings as large rounded shapes on each side, with the forewings broader and the hindwings smaller and lower.
4. Outline the wings with a thick border and add interior vein lines plus small dark wing spots for pattern.

How to Draw Moth — Free Practice Sheets

ANSWER / CASE 2

moth: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

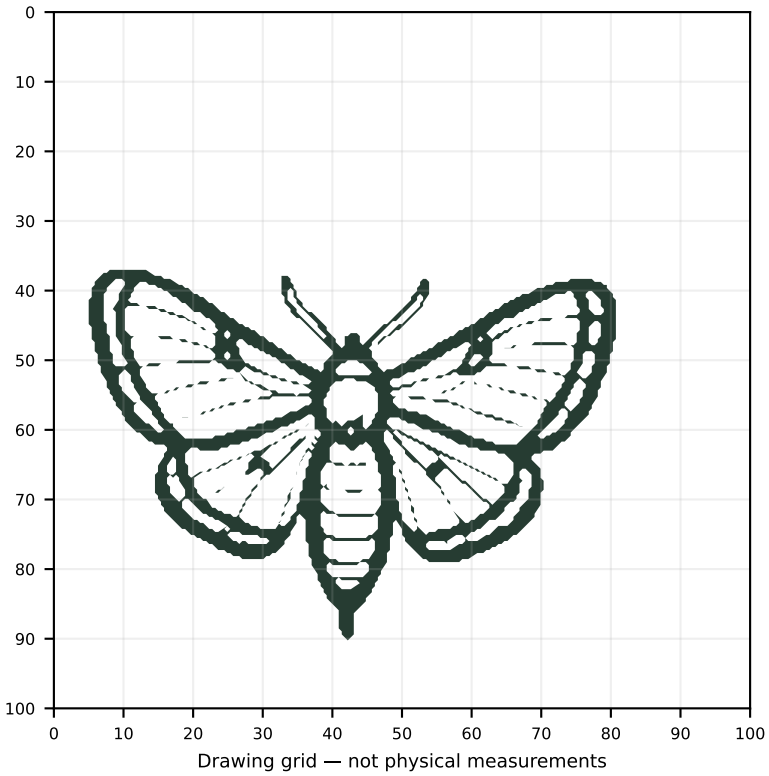

ANSWER: Example solution: preserve wide patterned wings with bold outline and interior vein lines, two thin curved antennae extending upward from the head, stout segmented body with a rounded head and tapered abdomen. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a vertical oval for the head and a segmented tapered oval for the abdomen to form the stout body.
2. Add two thin curved antennae from the top of the head, angling outward.
3. Draw four wide wings as large rounded shapes on each side, with the forewings broader and the hindwings smaller and lower.
4. Outline the wings with a thick border and add interior vein lines plus small dark wing spots for pattern.

ANSWER / CASE 3

moth: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

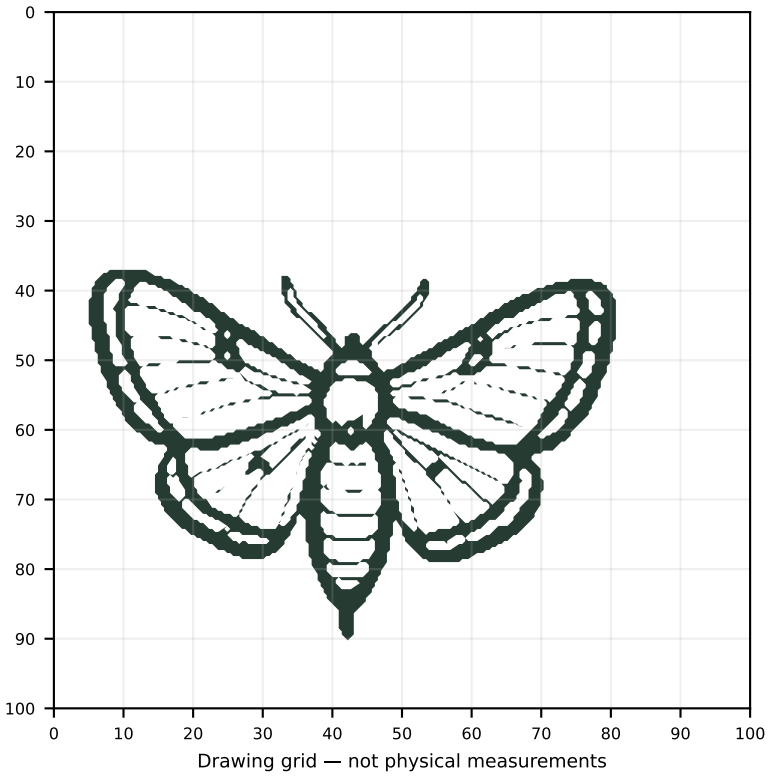

ANSWER: Example solution: preserve wide patterned wings with bold outline and interior vein lines, two thin curved antennae extending upward from the head, stout segmented body with a rounded head and tapered abdomen. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a vertical oval for the head and a segmented tapered oval for the abdomen to form the stout body.
2. Add two thin curved antennae from the top of the head, angling outward.
3. Draw four wide wings as large rounded shapes on each side, with the forewings broader and the hindwings smaller and lower.
4. Outline the wings with a thick border and add interior vein lines plus small dark wing spots for pattern.

How to Draw Moth — Free Practice Sheets

ANSWER / CASE 4

moth: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve wide patterned wings with bold outline and interior vein lines, two thin curved antennae extending upward from the head, stout segmented body with a rounded head and tapered abdomen. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a vertical oval for the head and a segmented tapered oval for the abdomen to form the stout body.
2. Add two thin curved antennae from the top of the head, angling outward.
3. Draw four wide wings as large rounded shapes on each side, with the forewings broader and the hindwings smaller and lower.
4. Outline the wings with a thick border and add interior vein lines plus small dark wing spots for pattern.
