How to Draw Moth — Free Practice Sheets

REFERENCE / CASE 1

moth: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

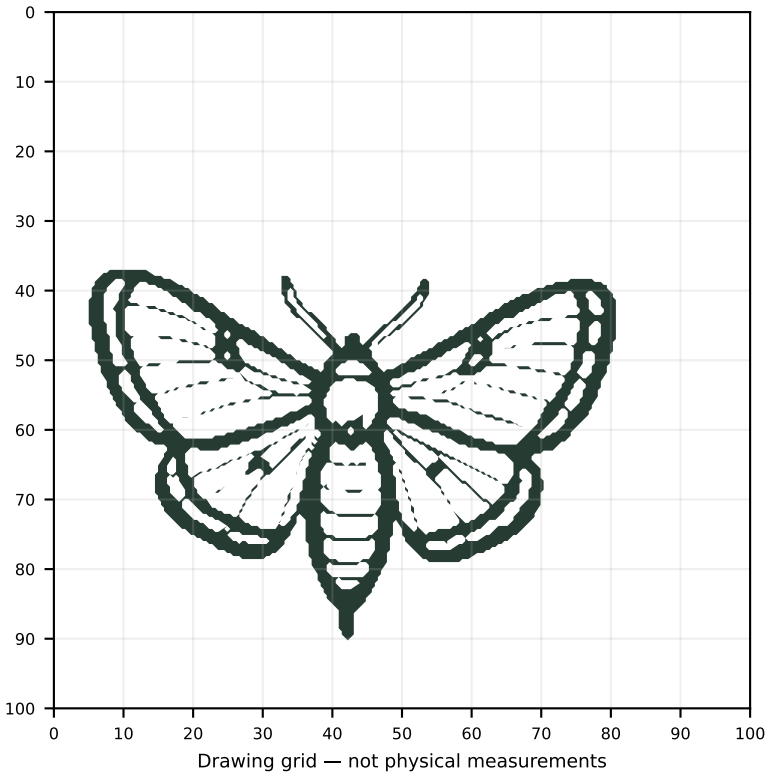

METHOD: Draw a vertical oval for the head and a segmented tapered oval for the abdomen to form the stout body. Add two thin curved antennae from the top of the head, angling outward. Draw four wide wings as large rounded shapes on each side, with the forewings broader and the hindwings smaller and lower. Outline the wings with a thick border and add interior vein lines plus small dark wing spots for pattern.
Use the separate practice sheet before checking the answer.

REFERENCE / CASE 3

moth: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

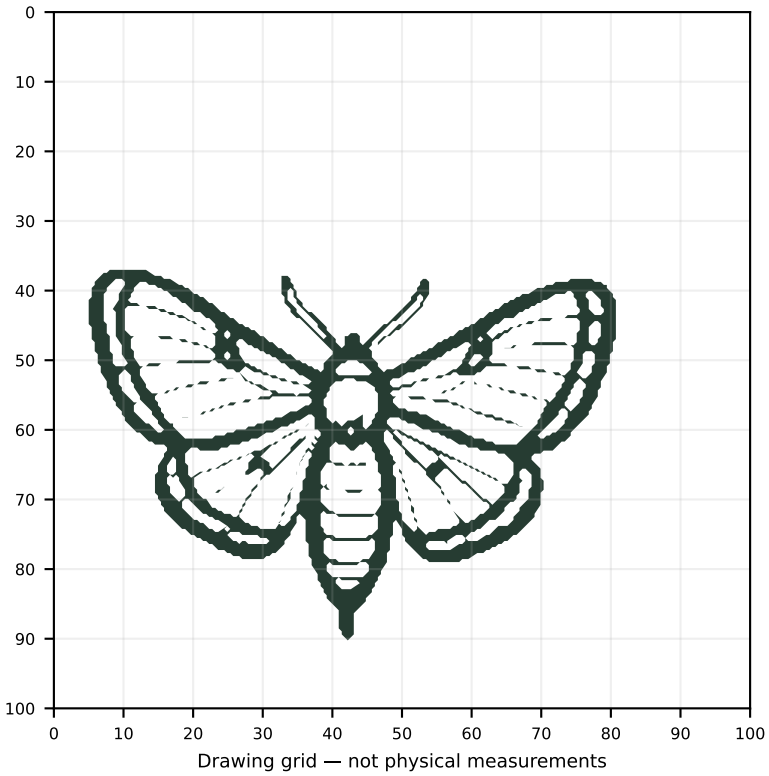

METHOD: Draw a vertical oval for the head and a segmented tapered oval for the abdomen to form the stout body. Add two thin curved antennae from the top of the head, angling outward. Draw four wide wings as large rounded shapes on each side, with the forewings broader and the hindwings smaller and lower. Outline the wings with a thick border and add interior vein lines plus small dark wing spots for pattern.
Use the separate practice sheet before checking the answer.

How to Draw Moth — Free Practice Sheets

REFERENCE / CASE 4

moth: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw a vertical oval for the head and a segmented tapered oval for the abdomen to form the stout body. Add two thin curved antennae from the top of the head, angling outward. Draw four wide wings as large rounded shapes on each side, with the forewings broader and the hindwings smaller and lower. Outline the wings with a thick border and add interior vein lines plus small dark wing spots for pattern.
Use the separate practice sheet before checking the answer.
