How to Draw Snail — Free Practice Sheets

ANSWER / CASE 1

snail: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

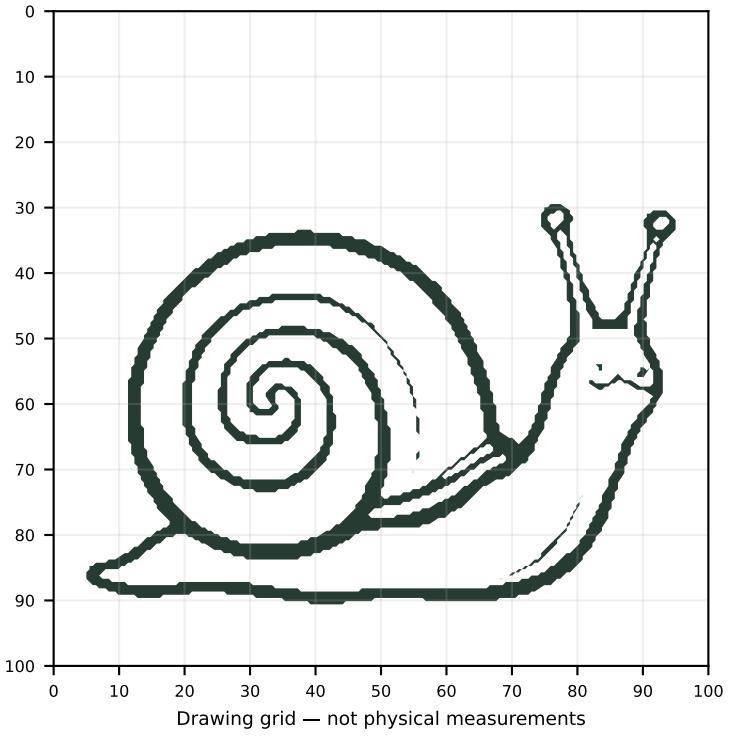

ANSWER: Example solution: preserve large spiral shell with concentric whorls, elongated soft body forming a foot/base, two upright eyestalk tentacles with round tips. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large circle for the shell and add an inward spiral line.
2. Sketch the elongated soft body as a low horizontal shape extending under the shell.
3. Attach the head at the right end of the body and draw two upright tentacles with small circles at the tips.
4. Add a simple smiling face and connect the shell to the body with a short neck line.

How to Draw Snail — Free Practice Sheets

ANSWER / CASE 2

snail: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

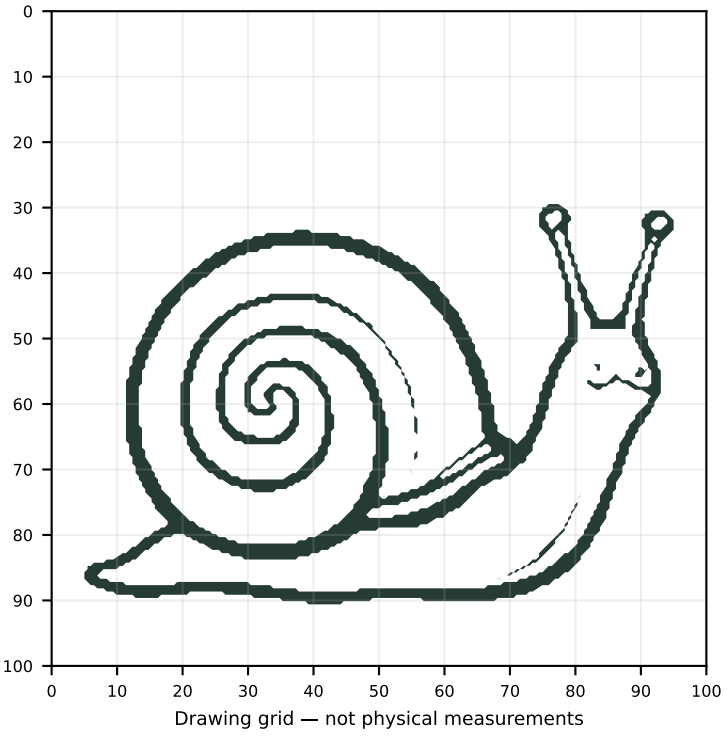

ANSWER: Example solution: preserve large spiral shell with concentric whorls, elongated soft body forming a foot/base, two upright eyestalk tentacles with round tips. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large circle for the shell and add an inward spiral line.
2. Sketch the elongated soft body as a low horizontal shape extending under the shell.
3. Attach the head at the right end of the body and draw two upright tentacles with small circles at the tips.
4. Add a simple smiling face and connect the shell to the body with a short neck line.

ANSWER / CASE 3

snail: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

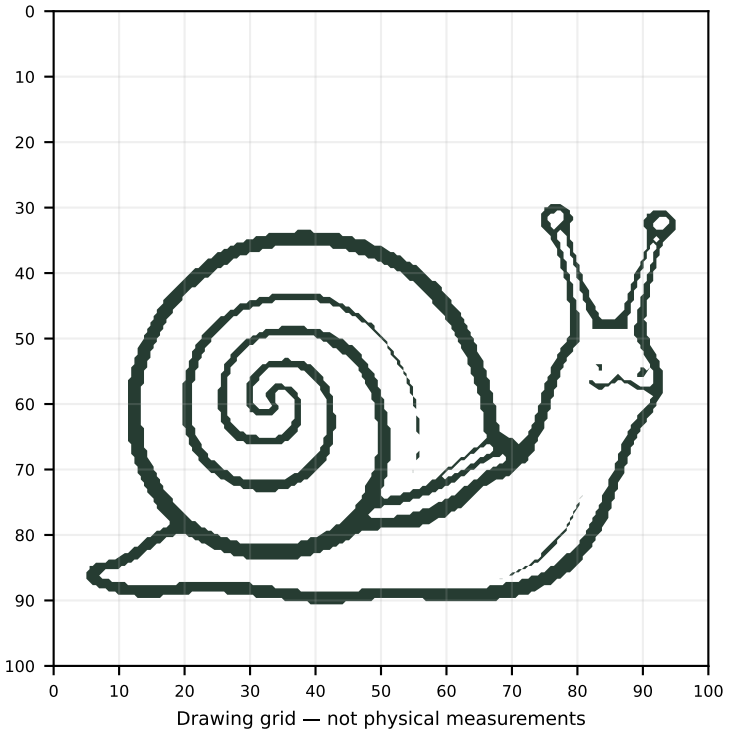

ANSWER: Example solution: preserve large spiral shell with concentric whorls, elongated soft body forming a foot/base, two upright eyestalk tentacles with round tips. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large circle for the shell and add an inward spiral line.
2. Sketch the elongated soft body as a low horizontal shape extending under the shell.
3. Attach the head at the right end of the body and draw two upright tentacles with small circles at the tips.
4. Add a simple smiling face and connect the shell to the body with a short neck line.

How to Draw Snail — Free Practice Sheets

ANSWER / CASE 4

snail: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve large spiral shell with concentric whorls, elongated soft body forming a foot/base, two upright eyestalk tentacles with round tips. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large circle for the shell and add an inward spiral line.
2. Sketch the elongated soft body as a low horizontal shape extending under the shell.
3. Attach the head at the right end of the body and draw two upright tentacles with small circles at the tips.
4. Add a simple smiling face and connect the shell to the body with a short neck line.
