How to Draw Snake — Free Practice Sheets

ANSWER / CASE 1

snake: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

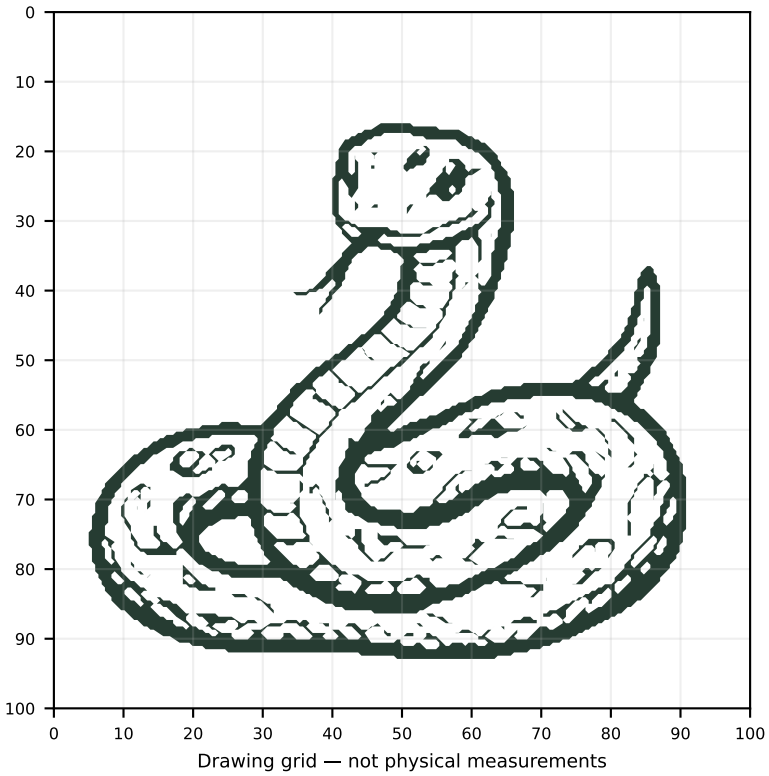

ANSWER: Example solution: preserve long curved body coiled in an S-shape, no limbs present, tapered tail extending upward at the right. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the triangular head with two eyes and a forked tongue at the top center.
2. Extend a long neck downward, curving it into a wide S-shape.
3. Draw the coiled lower body as overlapping loops, keeping the outline continuous.
4. Add a tapered tail pointing upward on the right side and fill the body with simple scale patterns.

How to Draw Snake — Free Practice Sheets

ANSWER / CASE 2

snake: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

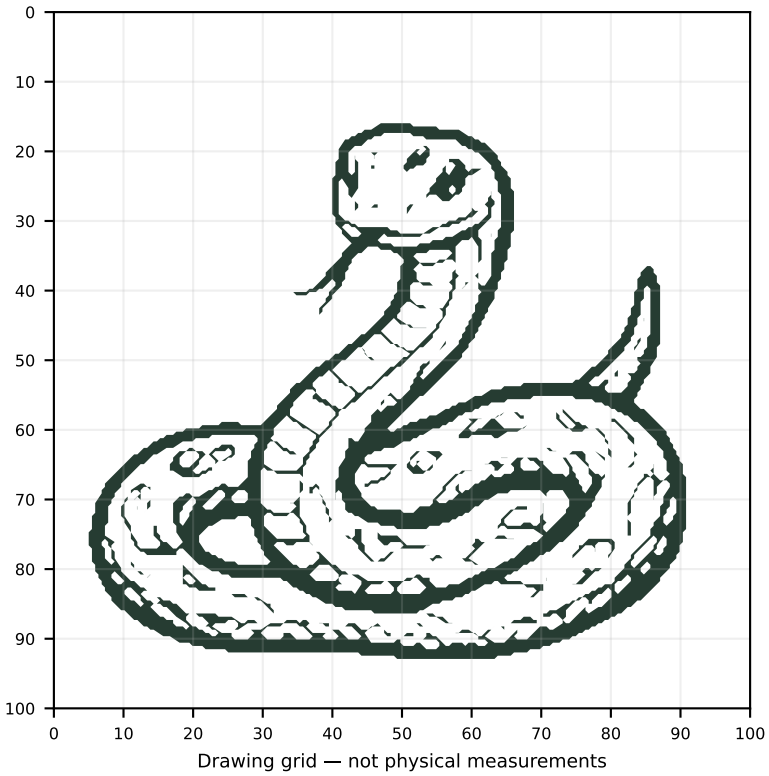

ANSWER: Example solution: preserve long curved body coiled in an S-shape, no limbs present, tapered tail extending upward at the right. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the triangular head with two eyes and a forked tongue at the top center.
2. Extend a long neck downward, curving it into a wide S-shape.
3. Draw the coiled lower body as overlapping loops, keeping the outline continuous.
4. Add a tapered tail pointing upward on the right side and fill the body with simple scale patterns.

How to Draw Snake — Free Practice Sheets

ANSWER / CASE 3

snake: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

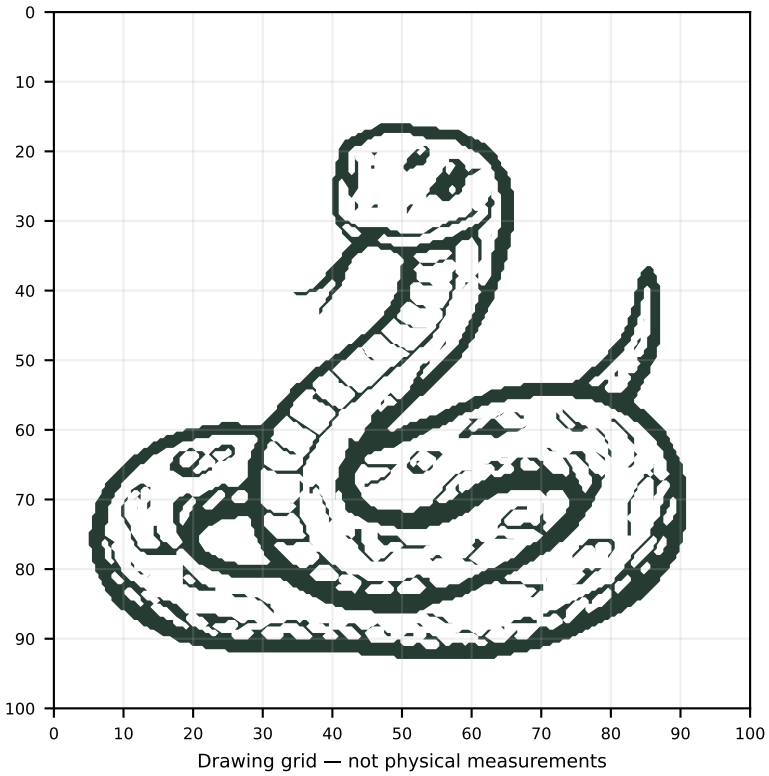

ANSWER: Example solution: preserve long curved body coiled in an S-shape, no limbs present, tapered tail extending upward at the right. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the triangular head with two eyes and a forked tongue at the top center.
2. Extend a long neck downward, curving it into a wide S-shape.
3. Draw the coiled lower body as overlapping loops, keeping the outline continuous.
4. Add a tapered tail pointing upward on the right side and fill the body with simple scale patterns.

How to Draw Snake — Free Practice Sheets

ANSWER / CASE 4

snake: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve long curved body coiled in an S-shape, no limbs present, tapered tail extending upward at the right. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the triangular head with two eyes and a forked tongue at the top center.
2. Extend a long neck downward, curving it into a wide S-shape.
3. Draw the coiled lower body as overlapping loops, keeping the outline continuous.
4. Add a tapered tail pointing upward on the right side and fill the body with simple scale patterns.
