How to Draw Lanternfly — Free Practice Sheets

REFERENCE / CASE 1

lanternfly: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

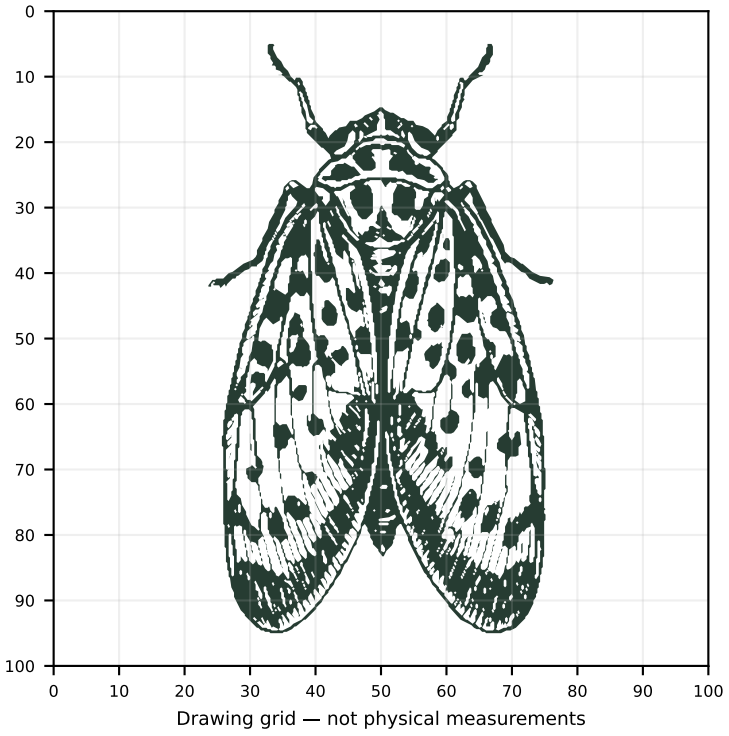

METHOD: Draw a vertical central axis and sketch the head, thorax, and abdomen as stacked ovals. Add the folded tent-like forewings as two long, rounded shapes meeting along the midline. Place dark spots across the forewings and add patterned patches near the lower hindwing areas. Attach three legs per side to the thorax and add antennae from the head. Use the separate practice sheet before checking the answer.
