How to Draw Black Widow Spider — Free Practice Sheets

ANSWER / CASE 1

black widow spider: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

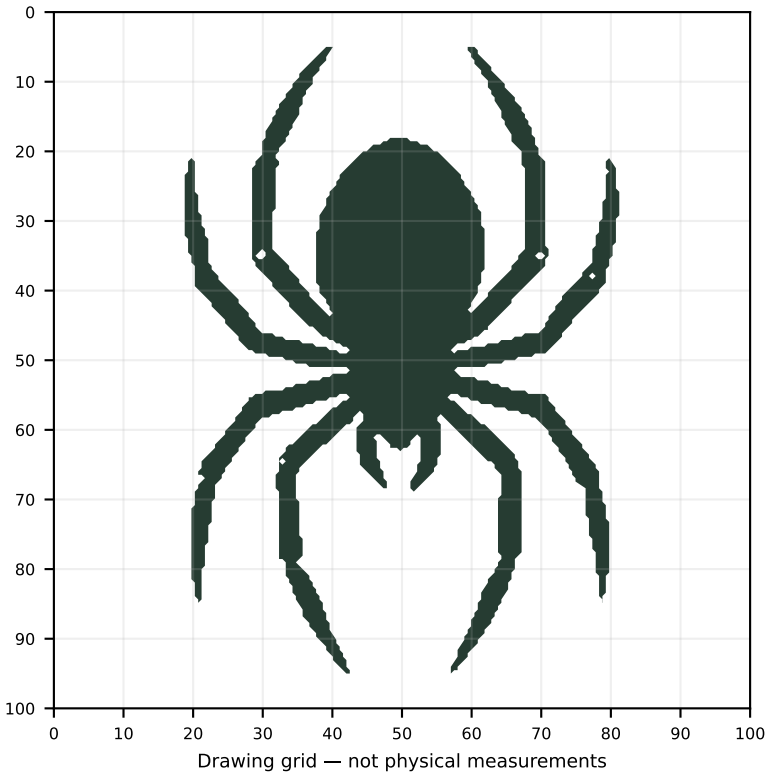

ANSWER: Example solution: preserve large round black abdomen, long jointed legs with visible segment joints, small fang-like structures at the front. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large oval for the abdomen and a smaller rounded shape for the cephalothorax.
2. Add eight jointed legs radiating from the cephalothorax, using bent lines to show leg segments.
3. Draw two small curved fangs at the front of the cephalothorax.
4. Fill the body and legs with solid black to create the silhouette.

How to Draw Black Widow Spider — Free Practice Sheets

ANSWER / CASE 2

black widow spider: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

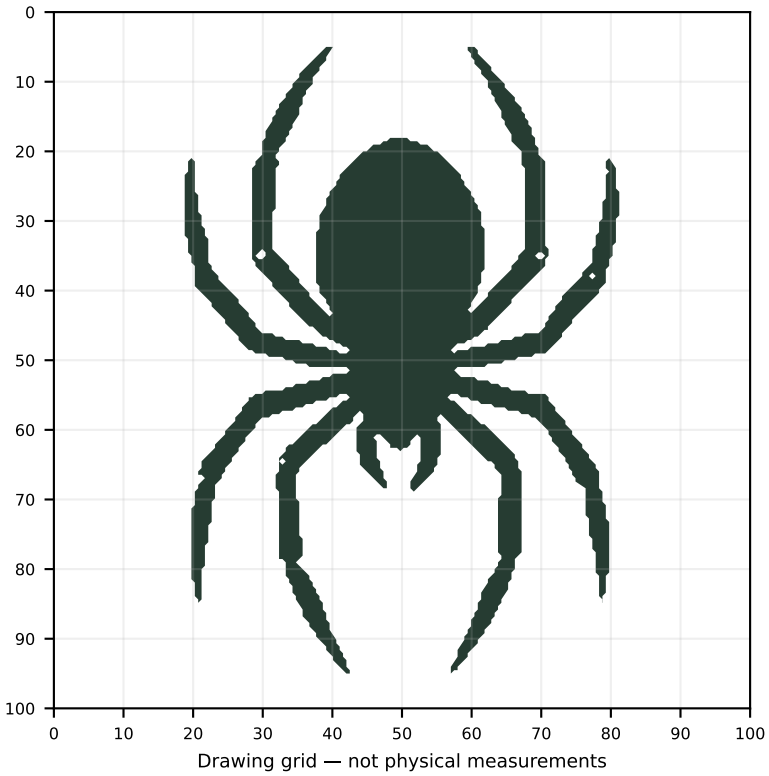

ANSWER: Example solution: preserve large round black abdomen, long jointed legs with visible segment joints, small fang-like structures at the front. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large oval for the abdomen and a smaller rounded shape for the cephalothorax.
2. Add eight jointed legs radiating from the cephalothorax, using bent lines to show leg segments.
3. Draw two small curved fangs at the front of the cephalothorax.
4. Fill the body and legs with solid black to create the silhouette.

How to Draw Black Widow Spider — Free Practice Sheets

ANSWER / CASE 3

black widow spider: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

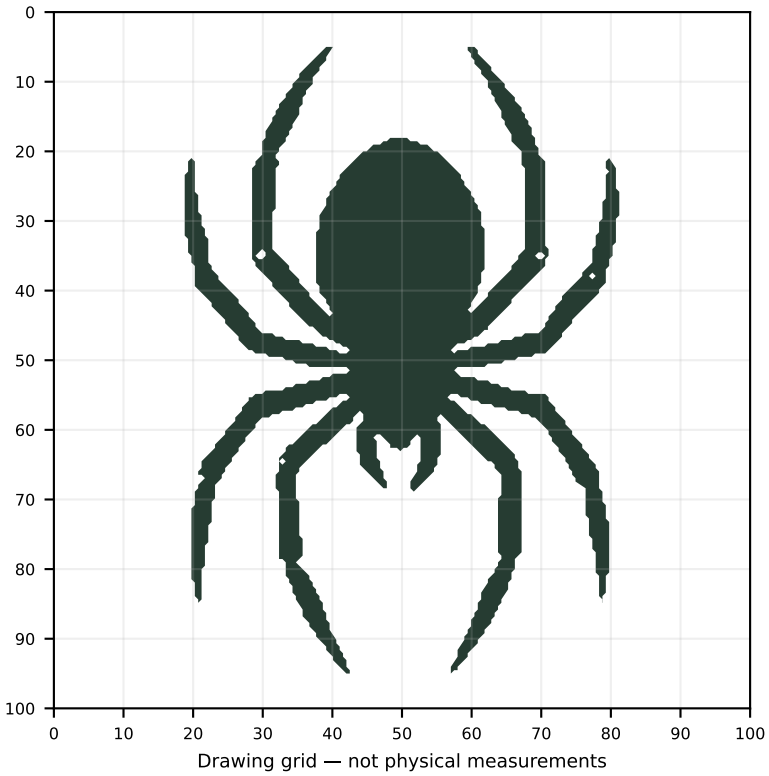

ANSWER: Example solution: preserve large round black abdomen, long jointed legs with visible segment joints, small fang-like structures at the front. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large oval for the abdomen and a smaller rounded shape for the cephalothorax.
2. Add eight jointed legs radiating from the cephalothorax, using bent lines to show leg segments.
3. Draw two small curved fangs at the front of the cephalothorax.
4. Fill the body and legs with solid black to create the silhouette.

How to Draw Black Widow Spider — Free Practice Sheets

ANSWER / CASE 4

black widow spider: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve large round black abdomen, long jointed legs with visible segment joints, small fang-like structures at the front. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large oval for the abdomen and a smaller rounded shape for the cephalothorax.
2. Add eight jointed legs radiating from the cephalothorax, using bent lines to show leg segments.
3. Draw two small curved fangs at the front of the cephalothorax.
4. Fill the body and legs with solid black to create the silhouette.
