How to Draw Raven — Free Practice Sheets

ANSWER / CASE 1

raven: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

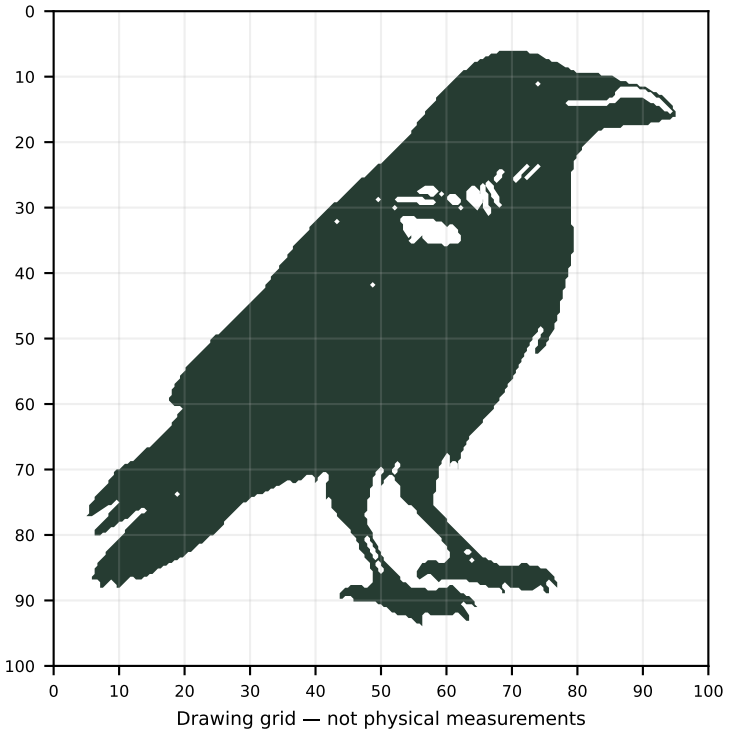

ANSWER: Example solution: preserve glossy black body with layered feather shapes, thick, slightly hooked beak, wedge-shaped tail extending down and back. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the main body as a large teardrop/oval tilted diagonally, with the head at the upper right.
2. Add the thick beak as a tapered wedge projecting from the head, then outline the rounded head and neck.
3. Sketch the wing as a layered curved shape along the back, and extend the tail into a wedge shape below the body.
4. Draw two legs from the lower body, adding feet with visible toes/claws, then refine feather outlines and erase construction lines.

How to Draw Raven — Free Practice Sheets

ANSWER / CASE 2

raven: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

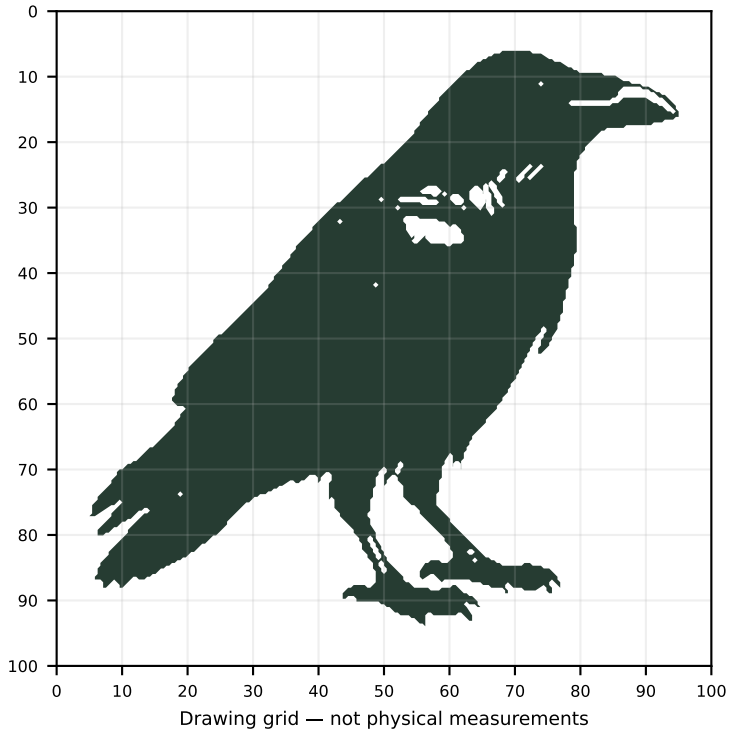

ANSWER: Example solution: preserve glossy black body with layered feather shapes, thick, slightly hooked beak, wedge-shaped tail extending down and back. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the main body as a large teardrop/oval tilted diagonally, with the head at the upper right.
2. Add the thick beak as a tapered wedge projecting from the head, then outline the rounded head and neck.
3. Sketch the wing as a layered curved shape along the back, and extend the tail into a wedge shape below the body.
4. Draw two legs from the lower body, adding feet with visible toes/claws, then refine feather outlines and erase construction lines.

How to Draw Raven — Free Practice Sheets

ANSWER / CASE 3

raven: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

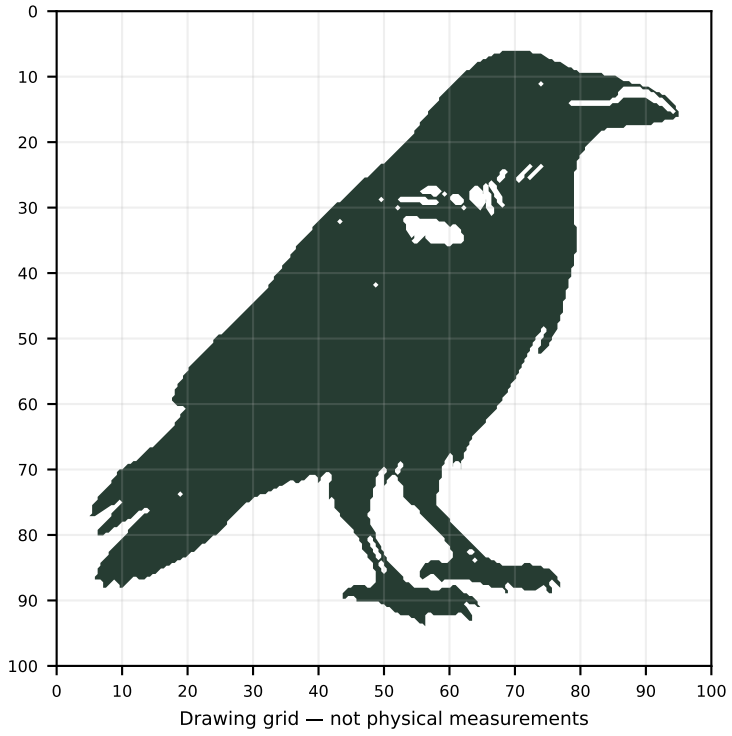

ANSWER: Example solution: preserve glossy black body with layered feather shapes, thick, slightly hooked beak, wedge-shaped tail extending down and back. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the main body as a large teardrop/oval tilted diagonally, with the head at the upper right.
2. Add the thick beak as a tapered wedge projecting from the head, then outline the rounded head and neck.
3. Sketch the wing as a layered curved shape along the back, and extend the tail into a wedge shape below the body.
4. Draw two legs from the lower body, adding feet with visible toes/claws, then refine feather outlines and erase construction lines.

How to Draw Raven — Free Practice Sheets

ANSWER / CASE 4

raven: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve glossy black body with layered feather shapes, thick, slightly hooked beak, wedge-shaped tail extending down and back. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the main body as a large teardrop/oval tilted diagonally, with the head at the upper right.
2. Add the thick beak as a tapered wedge projecting from the head, then outline the rounded head and neck.
3. Sketch the wing as a layered curved shape along the back, and extend the tail into a wedge shape below the body.
4. Draw two legs from the lower body, adding feet with visible toes/claws, then refine feather outlines and erase construction lines.
