How to Draw Raven — Free Practice Sheets

REFERENCE / CASE 1

raven: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

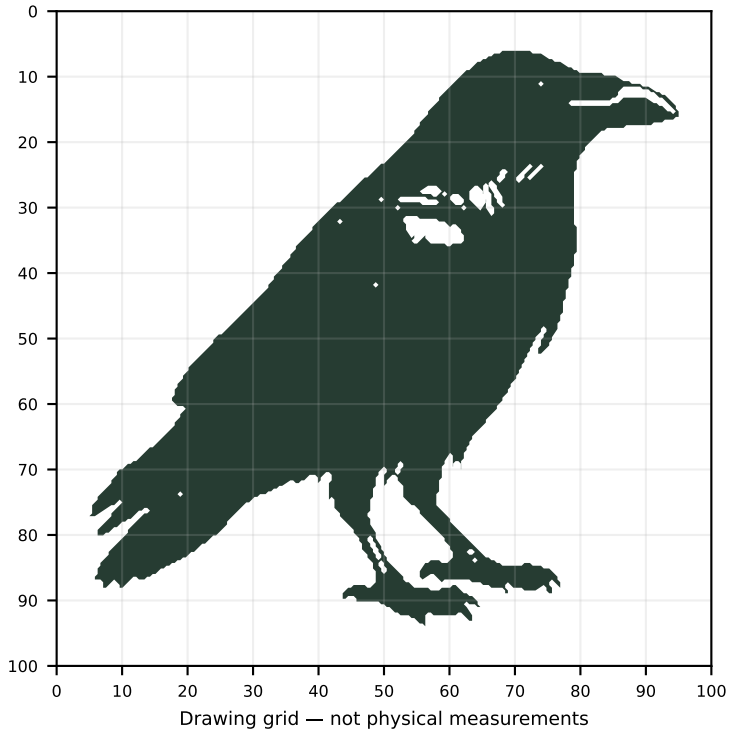

METHOD: Draw the main body as a large teardrop/oval tilted diagonally, with the head at the upper right. Add the thick beak as a tapered wedge projecting from the head, then outline the rounded head and neck. Sketch the wing as a layered curved shape along the back, and extend the tail into a wedge shape below the body. Draw two legs from the lower body, adding feet with visible toes/claws, then refine feather outlines and erase construction lines.
Use the separate practice sheet before checking the answer.
